IRELAND'S LEADING PROVIDER OF QUALITY BATHROOM PRODUCTS

Combining style and performance, we're here to help you create your perfect bathroom. For over 40 years, we've been carefully curating beautiful bathroom product collections. Whether you're after the latest design trend, or a timeless look, all our products are fully supported. Our dedicated After Sales and Technical Support Team are always available to provide you with quality assurance and peace of mind.

SO, let's get planning!

At SONAS, we believe your bathroom is a sanctuary; a personal space to relax and explore your true self. Your bathroom journey should reflect your creativity and personality. Your bathroom should capture your individuality and provide an intimate space for you to settle back and unwind in. To help you get started, we've developed a **5-step plan** to help you create your perfect bathroom. Follow our guide and take the first steps on your personalised journey.

2 Inspiration

Remember, this is your bathroom and it should reflect who you are. What's your style? Are you looking to create a contemporary, or modern design, or are you searching for something timeless? Once you've decided, start to visualise how you'd like your bathroom to look and how you want it to feel. Seek inspiration from our Instagram and social media channels. Explore interior design magazines & websites. Download our brochure for helpful design ideas. Imagine your dream bathroom and we can make it a reality.

1 Space

The most fundamental aspect to consider when renovating or designing your bathroom is your space. Your optimal design layout should be easy to use and functional. Ensure all your needs are catered for. Consider ergonomics as part of your design and make sure the layout works for you. Try to think beyond your current needs to imagine what your future requirements may be. Planning your space now will give you total comfort tomorrow.

3 Colour

Colour projects meaning and displays your frame of mind. Choosing the best combination of colours in your bathroom can bring together a variety of emotions such as happiness, calmness, intimacy, comfort, boldness or excitement. Different colours evoke different feelings and your choice of colour is based on your desired feeling. This is especially true for your bathroom and what you want to feel from this space. We have a wide range of colours throughout our product range that will awaken your creative self and reflect your personality. Bring your bathroom to life with tones and shades that speak for you.

4 Installation

No two bathrooms are the same and on-site conditions can vary. We recommend that you use an experienced and qualified professional to install your bathroom. Your qualified installer will provide the technical and practical advice needed. We have a nationwide retailer network who can assist you. We'll help to find the right installer so you can create your perfect bathroom.

5 Budget

Deciding on your budget in advance will help you in choosing a bathroom that works for you. This should also include a contingency for unforeseen issues, or last-minute changes. Having a professional installer survey your project before you commence can mitigate against any surprises. SONAS provide superior bathroom products at a reasonable price. Our range is versatile, high-quality and caters for all budgets.

Finally...

SONAS
BATHROOMS

At SONAS, we know that creating your perfect bathroom can be challenging. There are many choices for you to consider and decisions you need to make. That's why we've developed a buying guide at the start of each product section. Taken one step at a time, this is a simple breakdown to help you find your perfect bathroom fit. SOyou, let's get started!

FURNITURE

A bathroom vanity unit is a must-have furniture solution, which includes the washbasin along with practical storage. Designed with doors or drawers - depending on your preference - they can be wall hung or floor standing. Each unit boasts thoughtful design features such as hidden storage, soft closing mechanisms and complimentary handles. Bring style and function into your bathroom with the SONAS Bathrooms collection of vanity units.

FURNITURE GUIDE

Wall Hung

Wall hung furniture gives the illusion of greater space and allows for easier cleaning of your floor. Before installation, ensure your wall can support the weight of the unit and that your pipework is fed through the wall, rather than the floor.

Countertop

The washbasin sits on top of the countertop unit. These units give you a modern, minimalist look. They also offer ample storage and allow you the opportunity to choose your own style, colour and shape of countertop washbasin.

Floor Standing

Floor standing furniture is installed directly on to the bathroom floor. These vanity units, which include the basin, utilise the area beneath the basin to provide you with a generous storage space.

Cloakroom

Ideal for smaller spaces, cloakroom units are the perfect combination of basin and unit. They offer essential storage without taking up much space, allowing you to keep your bathroom spares hidden neatly away from your guests.

Space saving

Space saving units help you optimise your bathroom. Available in wall hung or floor standing, these vanity units are available in a variety of colours & styles, and provide a surprising amount of storage despite their compact size.

Storage

Keep your bathroom tidy and give yourself extra breathing room with a stylish storage unit. Units are available in wall hung or floor standing. Choose from a variety of colours & styles, from traditional to sleek and contemporary.

WC Unit

A WC unit is a simple and modern way to add a back to wall toilet to your bathroom while concealing unsightly pipework. These units also cleverly offer additional shelf space for your bathroom's finishing touches.

MIRRORS & LIGHTS

No bathroom is complete without suitable mirroring and lighting. Mirrors give the illusion of space, while the right lighting creates ambience. With the SONAS LED Colour Temperate range of mirrors, you can select a cool white light to invigorate, or a warm white tone to unwind. SONAS mirrors and lights are available in a variety of shapes and sizes, including illuminated mirrors and mirror cabinets with overhead lighting.

IP44

(Water Ingress Protection)
An IP44 rating means your product is protected from solid particles over 1mm in size and low velocity water sprays.

ZONES

Electrics need water protection. A zone number signals likely water risk. A low zone number requires a high IP rating.

COLOUR TEMPERATURE

A lower colour temperature produces a warmer, more relaxing glow and a higher colour temperature displays a cooler brighter light.

LED

(light-emitting diode) bulbs are more energy efficient and durable than standard light bulbs, often enabling 50,000 hours of use.

ENERGY RATING

This is a way of measuring and showing how energy-efficient a product is, based on how much energy it uses.

TOUCH SWITCH

As the name suggests, touch switches are activated by lightly pressing the on/off button.

ROCKER SWITCH

Rocker Switches are the traditional lever-like switch that you press at either end to turn on and off.

SENSOR SWITCH

These switches detect motion, enabling the light to turn on and off with a waved hand before the sensor.

DEMISTER

A small device that heats up your mirror to prevent the build-up of steam and condensation, leaving your mirror fog free.

BLUETOOTH CONNECTIVITY

This allows devices to wirelessly communicate with one another. Play music on your SANSa Bluetooth Mirror while you get ready.

SOFT CLOSE

Soft close technology allows drawers and doors to close softly and slowly, preventing them from slamming shut.

ASTRID BEAM

- Features

SANITARYWARE

A toilet and washbasin are integral requirements in every home. These are the primary focal points of your space, and your choice will be central to creating your perfect bathroom. For the contemporary consumer, choice and the ability to create a unique aesthetic in the bathroom is important. Modern designs come in various shapes and styles. Select an enduring, stylish and quality solution from our SONAS ceramics collection.

SANITARYWARE GUIDE

Full Pedestal Basin

Full Pedestal Basins are attached to your wall. Equipped with a floor mounted pedestal, these basins provide a shroud to conceal your pipework and easily harmonise with the rest of your space.

Semi Pedestal Basin

Semi Pedestal Basins are wall hung basins secured to a supporting wall. They conceal pipework that returns through the wall with a semi pedestal that does not reach the floor. These basins provide your bathroom with more floor space.

Countertop Basin

Countertop Basins positioned on top of a countertop unit or shelf are best paired with a tall basin tap, or wall mounted tap. The SONAS range of countertop basins are available in a variety of colours, shapes and sizes.

Undermounted Basin

An undermounted basins sits under your surrounding countertop, which is a popular solution for a custom-built vanity application. This style of basin is easy to clean and creates a beautiful aesthetic.

Corner Basin

Corner Basins fit into a right-angled wall corner of your bathroom. They are attached to the wall and often have no pedestal. Bottle Traps can be added to house your pipework. These basins are perfect for cloakrooms or smaller bathrooms.

Close Coupled - Open Back

A Closed Coupled Open Back style WC has the pan and cistern closely coupled together with 100mm of clearance space. This measurement provides more flexibility for your pipework and can be easily accommodated within most bathrooms.

Close Coupled - Fully Shrouded

A Closed Coupled Fully Shrouded toilet has the pan and cistern closely coupled together. In this design, the pan is seen to meet with your wall. This allows you to conceal your bathroom pipework.

Wall Hung

Wall Hung Toilets are mounted, thereby creating more space. They require a fast fix frame installed behind a wall. The frame supports up to 400kg and flushing mechanisms are easily accessible through the push plate.

Back to Wall

Back to Wall toilets are a great space saving technique. The main difference between this style and the Closed Coupled toilet is that the cistern is concealed behind your bathroom wall, or placed in a furniture WC unit.

Comfort Height

The SONAS Comfort Height WC collection stands a little taller than regular height toilets. The additional elevation makes accessing the pan easier, and more comfortable to use.

Short Projection

These WCs are the perfect solution if you are short on space. They are standard toilets, but extend less. The SONAS range of Short Projection WCs allow you to maximise your space without compromising on quality and functionality.

TAPS

The SONAS tap collection is designed to complement both contemporary and traditional bathroom styles. This innovative and durable range of high-quality taps ensure long lasting satisfaction. The ECO cartridge in selected tap ranges also allows you to reduce water consumption without compromising on performance.

Before you select your desired choice, please consult with a qualified installer to ensure your on-site conditions meet with the minimum pressure requirement for your selection.

BASIN

Basin Mixer
The basin mixer cleverly combines hot and cold water into an individual stream. This design ensures easy control of both your temperature and your flow using only a single lever.

Cloakroom
The cloakroom is a more compact version of the basin mixer. These taps can be paired with our stunning range of cloakroom vanity units and are perfect for smaller spaces.

Freestanding
A stylish, elegant and contemporary tap choice for countertop basins without a tap hole. Freestanding taps are available in rounded or angular styles and come in chrome, brushed gold and matte black finishes.

Wall Mounted
Wall mounted taps add a touch of luxury to your bathroom. Fixed to your bathroom wall, these taps offer a seamless finish, and can be used as an alternative to a free-standing mixer where a countertop basin is used.

Basin Taps
Mounted onto the basin and sold as a pair, basin taps have separate taps for your hot and cold water. Basin taps are available in both traditional and modern styles.

Traditional
If you're searching for a timeless look, our range of traditional taps are the perfect solution to help create a classical aesthetic.

The SONAS eco range of basins mixers have been designed, using patented technology, to help reduce water consumption without compromising on performance. They also include a temperature limiter which can be adjusted to your requirements and help save on energy costs as well as being good for the environment. Look for the eco logo to see which products have this technology available.

50% flow rate

100% flow rate

BATH

SHOWER MIXERS

Deck Mounted
Deck mounted onto your bath, these taps are attached through drilled holes. A diverter allows you to switch between the bath filler or handset outlet. The inclusion of an extendable handheld shower head offers a full bathing or showering experience.

Floor Standing
Ideal for freestanding baths, these taps allow flexibility when choosing your bath position. Available in a range of stunning finishes and styles from contemporary to traditional. These taps are a first fix consideration. Please consult with your bathroom installer.

4 Hole
Deck mounted on to the bath with separate hot & cold controls with a diverter to switch to a convenient pull-out shower handset. 4 hole mixers requires an additional bath filling device such as a wall spout or overflow filler.

Thermostatic
Available in deck or wall-mounted options. Thermostatic bath mixers work on a pre-set temperature and can react to a sudden change in temperature, thereby avoiding scalding or cold shock.

FILLERS

Deck Mounted
Mounted on the bath through drilled holes, the single outlet mixes hot & cold water to achieve your desired temperature. Deck mounted bath fillers are available in a range of stunning finishes and styles from contemporary to traditional.

Overflow
Overflow bath fillers allows you to fill your bath from a device mounted at the overflow. Overflow bath fillers can be used as an intelligent space-saving solution.

Wall Mounted
These are a contemporary alternative to a conventional bath filler. Adding wall mounted fillers can effect a sleek and streamlined look and feel to your bathroom.

Spout
Designed for baths without pre-drilled tap holes or for freestanding baths, spout taps are ideal for creating a neat and clutter-free solution when positioned against a wall. Spout bath fillers are available in a choice of projections and finishes.

All measurements are in mm. All prices include VAT. Standard & cloakroom basin mixers include a click clack colour co-ordinated basin waste. Before purchasing taps and showers always ensure your site conditions meet the minimum operating pressure requirements. Please consult your plumber.

Standpipes in this kit are only suitable as pipe shrouds and are mounted to the underside of bath taps

SHOWERS

With the frantic hustle and bustle of our modern day living, the shower has become a family favourite space over the last two decades for a quick and easy wash. Showers offer us a great space for cleansing not just our bodies but also a space for clarity while we shampoo and condition! They're also a great way of reducing our water consumption, which is good for the environment too.

At SONAS we have a wide range of showers to suit you and your family's needs. Take a look through our buying guide and find the right option for you.

SHOWER GUIDE

There are two things you need to take into consideration when selecting a shower: the water pressure you have on site, and how much hot water capacity is available. SONAS have a variety of showering products to suit most plumbing systems. Including Concealed, Exposed, Manual and Thermostatic showers, you'll find your perfect fit with the beautiful SONAS range of shower valves and heads.

Exposed Showers

Exposed showers are surface mounted onto the finished tiled wall in the showering area. All hand-showers, overhead rain heads, diverters and pipework are integrated into one exposed kit for greater ease.

Concealed Showers

Concealed showers require the body of the valve to be installed behind the wall, with a trim kit fixed to the finished tile. These showers create a minimalist aesthetic by creating clean lines and reducing clutter.

Manual Showers

Manual showers are otherwise known as non-thermostatic. These are best suited to balanced plumbing systems where inlet water temperatures do not fluctuate. Manual showers are a popular choice for accessorizing your bath filling requirements.

Thermostatic Showers

A thermostatic shower valve features a special cartridge that responds to fluctuations to inlet water temperature and flow rates. These enable you to maintain a constant, safe water temperature while using your shower.

Dual Control – Single Outlet

A dual control shower valve allows you to operate your shower with one single water outlet. The second control enables you to adjust the water temperature to match your desired comfort level.

Dual Control – Dual Outlet

Similar in appearance to the dual control shower valve, the diverter option allows you to switch between two different water outlets. This is ideal for combining a rain head and hand shower option.

Triple Control – Dual Outlet

A triple control valve allows you to run two separate water outlets at the same time. This feature is ideal for running a rain head and body jets simultaneously. The third control adjusts the water temperature to your comfort.

Triple Control – Triple Outlet

A triple control valve with diverter gives the ability to run two separate outlets simultaneously, such as a rain head and body jets. The diverter also allows you to switch from a rain head to a hand shower, if needed.

Horizontal Dual Control – Dual Outlet

Designed to work in conjunction with a shower head or a bath filling device, this thermostatically controlled shower valve features an integrated hand shower for your comfort and convenience.

Tip: We consider your choice of concealed or exposed shower valve as first fix decision. A concealed shower valve is installed in a void before tiles are installed. Choosing this option should be decided and communicated to your installer early in your decision making process.

SHOWER ENCLOSURES & TRAYS

Whether your bathroom space allows for a luxurious walk-in shower, or a beautifully crafted shower enclosure, SONAS Bathrooms can manage your needs. All shower enclosures come with Clear Shield Easy Clean glass protection and a reassuring Lifetime Guarantee. Adjustments can vary depending on the range you select. If installing a shower door in a recess, for best results always measure the finished tile to tile opening before selecting your product.

SHOWER ENCLOSURE & TRAY GUIDE

CORNER ENTRY
Neatly fitting into any size bathroom, corner entry enclosures are great space savers. Available in our STYLE, K2 and City+ ranges, there is a style and size to suit your bathroom space.

HINGED
These enclosures are hinged on one side and open outwards, giving you ample space to access your shower. Suitable for use in a recess, or add a side panel to create a full enclosure.

QUADRANT
With a curved front profile, quadrant enclosures offer a generous showering experience, while allowing for additional floor space within the bathroom.

OFFSET QUADRANT
Boasting the same benefits as a quadrant enclosure, the offset enclosures have one side of the tray longer than the other, thereby creating the offset configuration. This allows for more room when showering, while still fitting neatly into the bathroom layout.

BIFOLD
Ideal for even the smallest bathroom, bifold doors open inwards, thereby taking up less space in your bathroom. Available in the STYLE, K2 and City+ ranges, there is a style and size to suit your bathroom space.

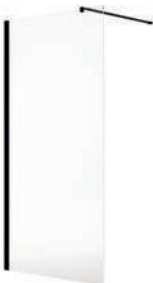

PIVOT
Pivot shower enclosure doors open outwards, creating a spacious showering experience while making access to the shower easy. It's important to ensure there is sufficient space in front of the shower when the door pivots open.

SLIDING
Sliding door enclosures are space saving in design and are available in a comprehensive range of styles and sizes. These doors can be used in recessed showers, or add a side panel to create a complete shower enclosure.

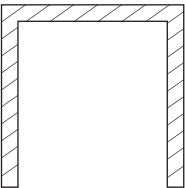

WETROOM PANELS
The luxurious STUDIO and ASPECT wetroom panels can be fit directly onto a tiled floor, or any of the SONAS Bathrooms shower trays. The extensive range of sizes and styles can help you create your unique and perfect bathroom.

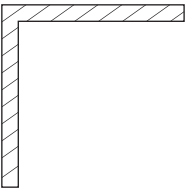

YOUR SPACE

Choose the right shower tray by planning ahead. Consider the footprint size you can allow for the tray, and which shape works best for your room. We have options including square, rectangle and quadrant trays. Your tray may be installed in a recessed or flat to floor application. Choose from a host of styles including ultra-low-profile Slate, acrylic capped low-profile, or the Ultracast range. Need any help?, just ask us.

TRAY TYPE

Slate

Slate & Eternity trays are the ultimate in luxury and style. Available in a range of shapes and sizes, they add texture and colour to your shower. Both feature a slip resistant, ultra-thin, 30mm low profile for a smooth finish. See Pages 284 -286.

Ultracast

Available in standard flat top and standard 4 upstand designs, the Ultracast shower tray combines high quality and style. Ultracast trays can come treated in an Anti-Slip coating, allowing a safer, calmer and more confident shower experience. See Page 289.

Low Profile Acrylic

Finished with a high quality, smooth white acrylic which is stylish and contemporary, comfortable to use and easy to clean. Available in an extensive range of shapes and sizes, with selected options available with integral tiling upstands. See Page 288.

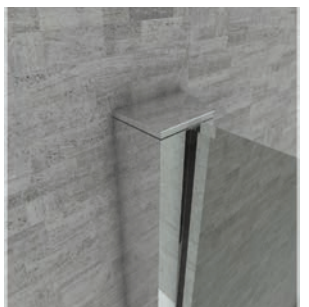

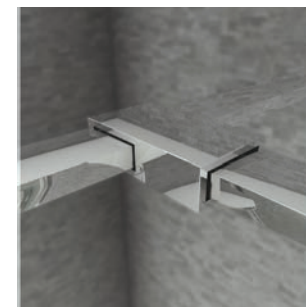

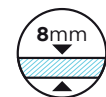

Anti-slip

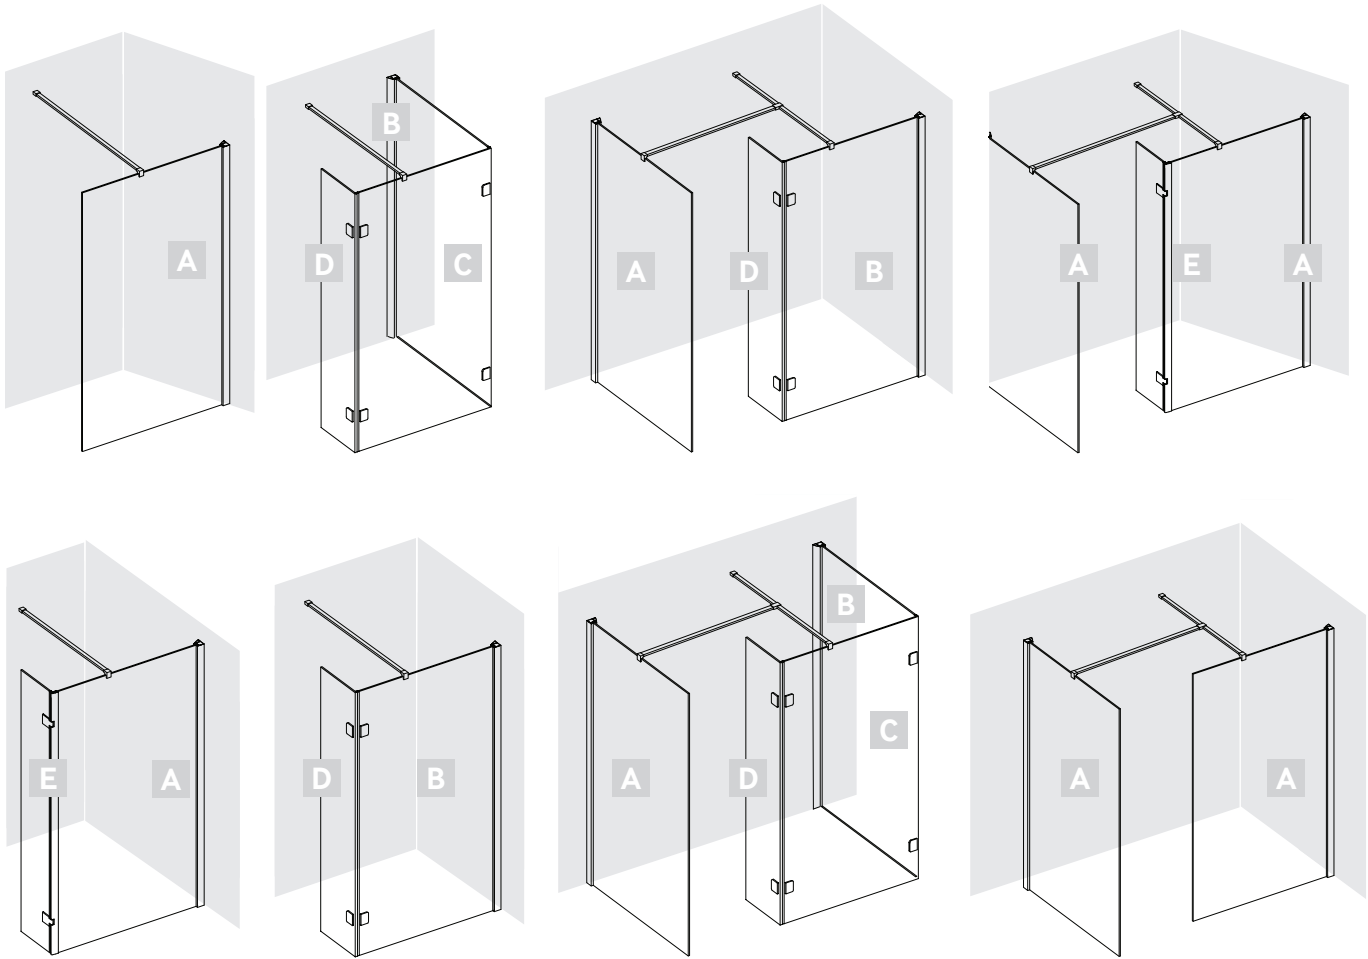

For added safety and peace of mind, our range of acrylic capped Low Profile and Ultracast trays are available to buy with an Anti-Slip protection applied. If choosing this option, please allow for an approximate delivery time of 2 weeks.

The **STUDIO Wetroom Panel** collection defines showering quality. The luxurious aesthetics and superb specifications creates a beautiful solution to your Wetroom environment. Suitable for shower tray or tiled floor applications, the **STUDIO** collection makes a statement of style for a sleek and sophisticated look.

STUDIO Wetroom Panels can be fitted directly onto a tiled floor or onto a shower tray

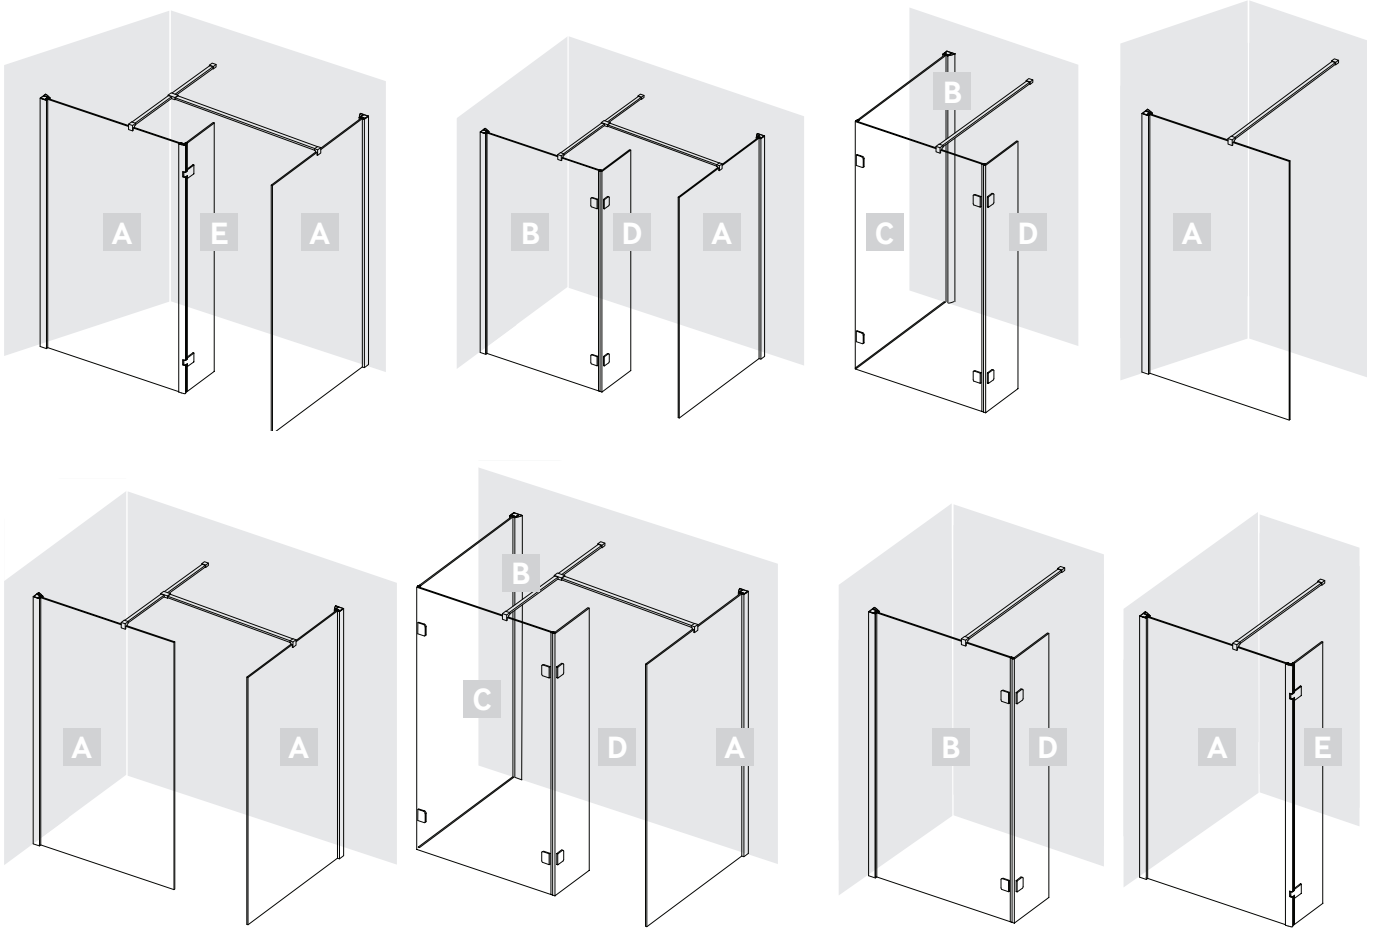

All of our **STUDIO** collection of wetroom panels features **CLEAR SHIELD** water repellent glass which helps prevent the build up of limescale dirt and soap deposits making glass easy to clean.

SLATE

Shower Trays

All our **SLATE** shower trays are made based on the latest material technologies, a combination of resins, gel coat and mineral stone. They are very strong against impact, comparable in this respect to natural stone. It is a product of solid core, strong and stiff, thereby preventing breakage.

FEATURES

- Resin Bonded Heavy Duty
 - Slip Resistant
 - 90mm High Flow Waste
 - 30mm High
- CE Approved

STANDARD FLAT TOP

The ULTRA CAST™ acrylic capped shower tray combines all the style and quality expected from the industry leader providing pleasure for years to come. Our contemporary design and beautiful finish enhances any bathroom environment. Manufactured to the highest specifications the ULTRA CAST™ acrylic capped resin bonded shower tray really is the perfect solution.

STANDARD 4 UPSTAND

The concept behind tiling upstands was developed to improve shower tray installation, maximise sealing benefits and minimise installation costs.

The ULTRA CAST™ Uprand shower tray has an integral tiling upstand which can be installed flush to the wall on one side allowing the shower cubicle tiling to simply overlap the upstand on the other side - simple but highly effective and especially suitable for new installations and building modernisation applications.

REMOVABLE EASY ACCESS PANEL

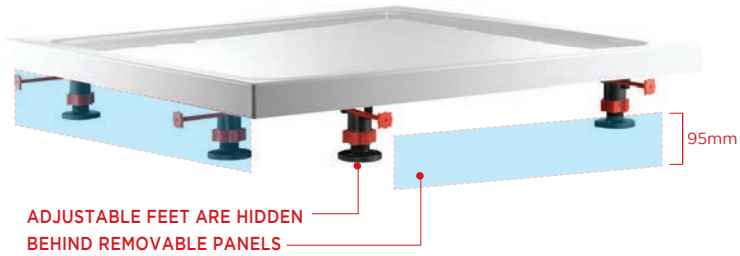

EASY PLUMB EASY ACCESS SHOWER TRAY KIT

The SONAS Bathroom Collection now offer an **Easy Plumb, Easy Access kit** solution across its range of **KRISTAL Low Profile** shower trays.

Loved by installers, the **easy plumb** installation **kit** features adjustable legs and loose removable access panels with a unique fastening system. Designed to raise the tray off the floor, it is ideal in applications where the shower tray waste and pipework needs to be plumbed above the floor boards or concrete floor.

The access panels in each **easy plumb kit** are made to suit various sizes and therefore may need to be cut down on site to suit some tray sizes. Each panel has cut lines clearly marked to suit your tray size.

Please refer to the guide opposite to identify which **easy plumb kit** you require to make your shower tray **easy plumb**.

BATHS

From large family bathrooms to smaller spaces, SONAS have a wide variety of bath shapes and sizes that will suit any bathroom. The SONAS Bathrooms bath range are designed with your comfort in mind. Transform your bathroom to a hydrotherapy suite by adding a whirlpool system to selected models.

BATH GUIDE

Freestanding

Create the “wow” factor in your bathroom with one of our stunning freestanding baths. Suited to all spaces, they create a spa-like, luxurious aesthetic. Freestanding baths grant the freedom to place the bath anywhere in your bathroom.

Straight Baths

Straight baths are a popular and versatile option. Typically wall fitted, they are available in single or double ended styles. Double ended baths have taps fitted along one side of the bath, while single ended have taps at one end.

Corner/Offset Baths

The ideal solution for space saving. Corner/Offset baths do not require a long wall as straight baths do, so can be neatly tucked into corners where another bath may not fit. These baths are available in left or right-hand orientation.

Shower Baths

Shower Baths are the perfect balance of luxury and practicality. There are 2 styles to choose from: P-shape and L-shape. These baths are wider at the showering area for comfort when standing. Both are available in left or right-handed orientation.

Slipper Baths

Slipper baths offer a comfortable lounging position for an ultimate relaxation experience. Single-slipper baths elevate at one end, and double-slipper tubs are raised at both ends. Whether reading or simply resting, you can comfortably unwind in a slipper bath.

Steel Baths

Superb value, steel baths offer durability and style with great heat retention. They are also simple to install and present a singular style. Complete the look with bath panels from our Scandinavian or Belmont range.

Endura Baths

For added durability, our range of Endura baths offer additional layers of GRP Reinforcement compared to a standard bath. Endura baths are available in double and single-ended options.

Whirlpool Baths

Luxurious and affordable, whirlpool baths are great for your well-being. Choose from 8 or 12 jets, with the option of an Aqua Light for added opulence. All SONAS Bathrooms acrylic baths are compatible with our whirlpool systems* excluding freestanding baths.

HEATING

Bring comfort and warmth to your bathroom surroundings with the SONAS Heating Collection. This range combines performance and style with great value for money. The SONAS Bathrooms Heated Rail Collections are suitable for most types of conventional heating systems. Complement your heated towel rail / radiator with a coordinated rad valve from our extensive selection. Relax into instant cosiness with the SONAS Heating Collection.

RADIATOR TYPES

Vertical

Vertical heated rails make the most of your available wall space, allowing you to choose a wider vanity unit or shower enclosure. These rails offer a striking focal point and are available in innovative contemporary designs.

Horizontal

Horizontal heated rails are neat, compact and perfect for placing under windows. This is usually the coldest place in the room. Placing a heated rail here will protect against the cold and makes good use of your wall space.

Ladder

Ladder heated rails are a stylish bathroom staple. These rails are available in three colour options and a variety of sizes. Ladder heated rails offer a sleek and minimalistic look, keeping your towel snug, warm and ready for use.

Traditional

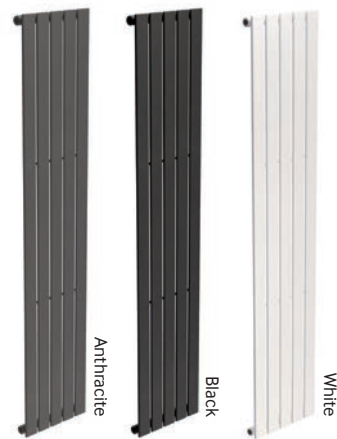

The timeless range of Traditional heated rails are the perfect addition to your classic bathroom design. The timeless range combines form and function and will confer on your space an air of elegance.

Speak to your qualified installer about your heating system type and the BTU requirement. BTU (British Thermal Unit) is the measurement used to calculate how much heat output is needed to warm a room. It's important that this is calculated accurately, to make sure your comfort level matches your space.

TECHNICAL SPECIFICATION

We know precision is an important part of planning your dream bathroom, that's why in the following section we have collated specific technical information on the **SONAS Bathrooms** products featured in this brochure.

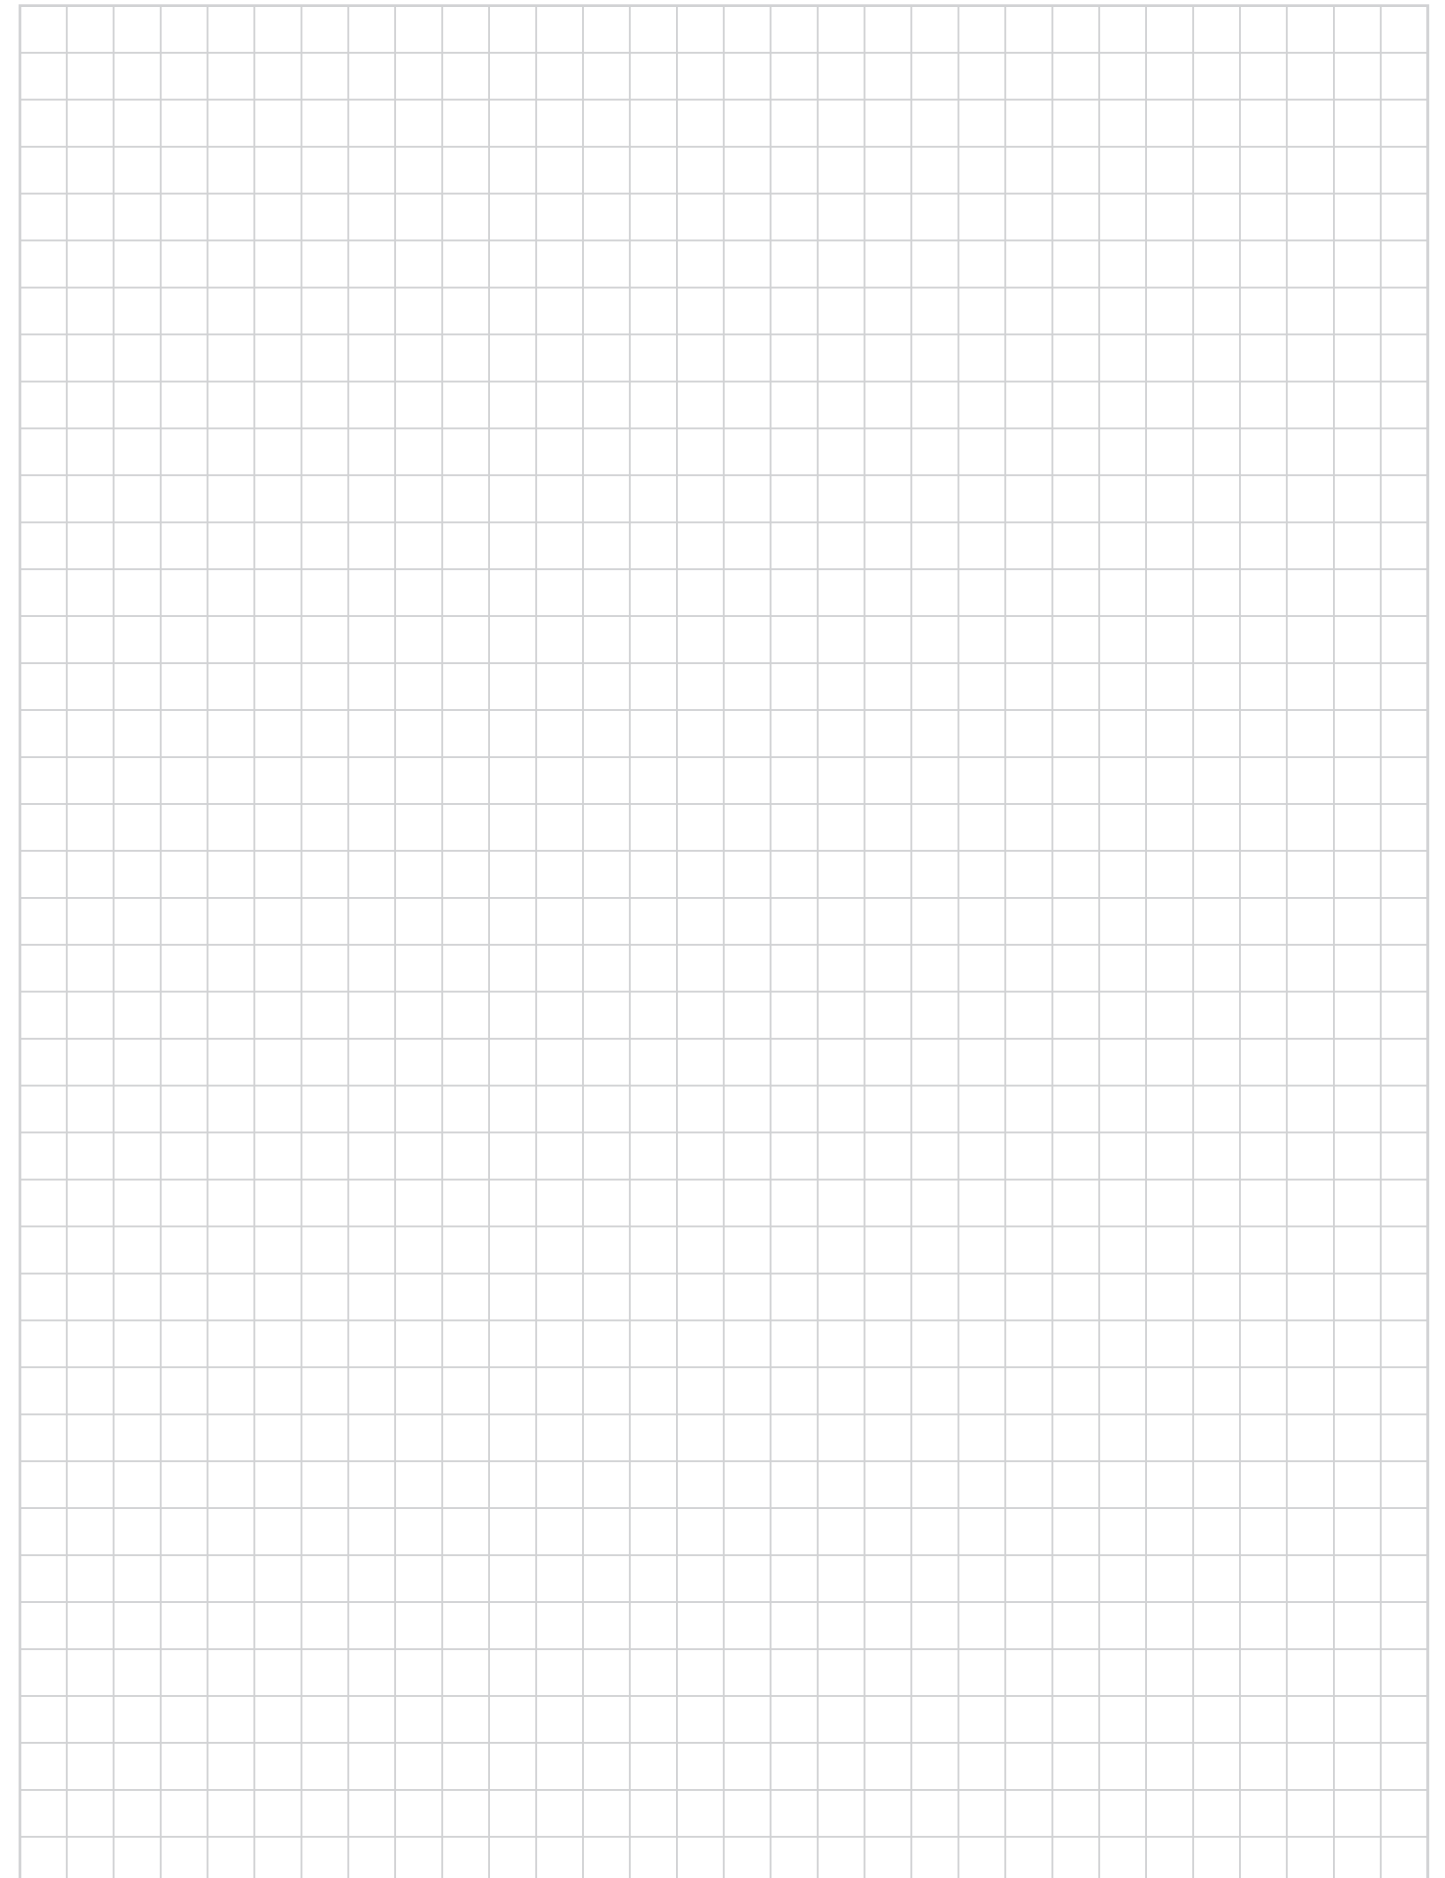

All the basic detail and information you require is presented in an easy to use format, however should you require any further information or general advice, please do not hesitate to contact your approved **SONAS** dealer.

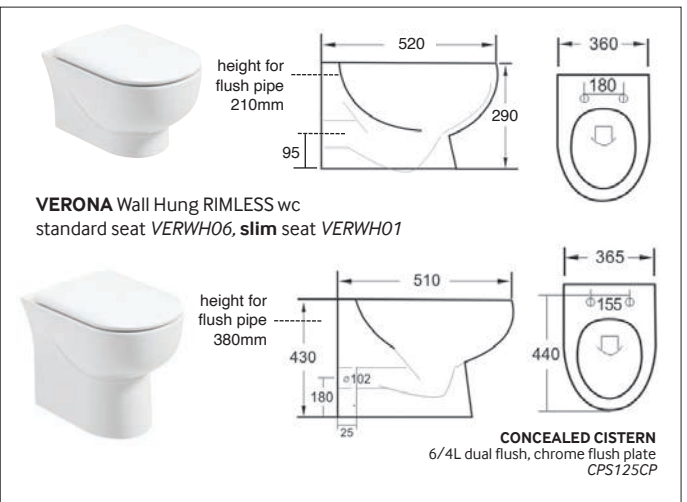

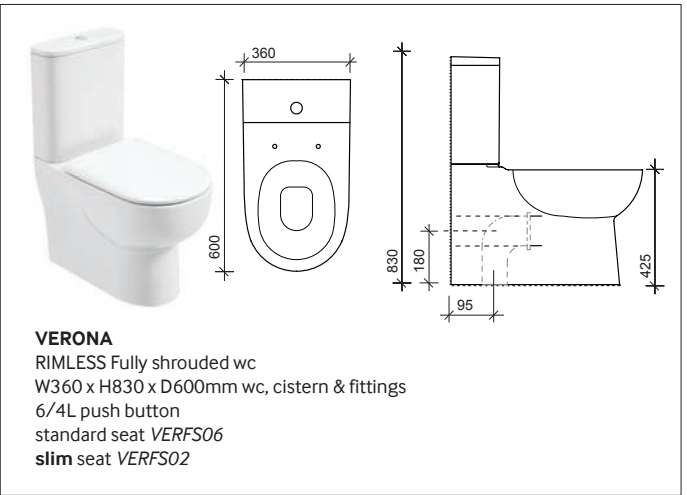

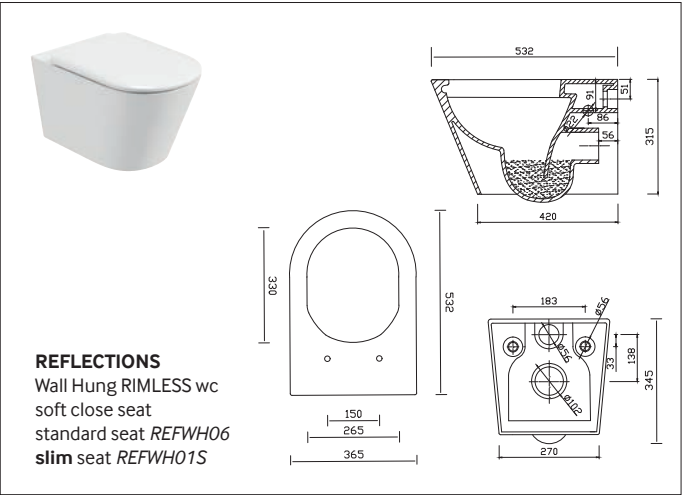

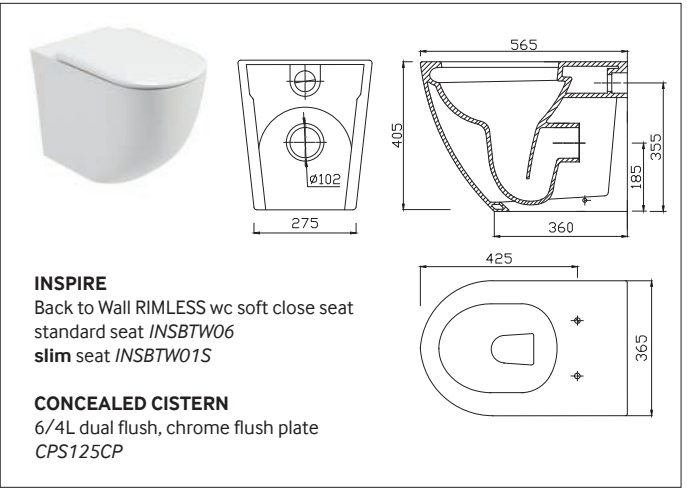

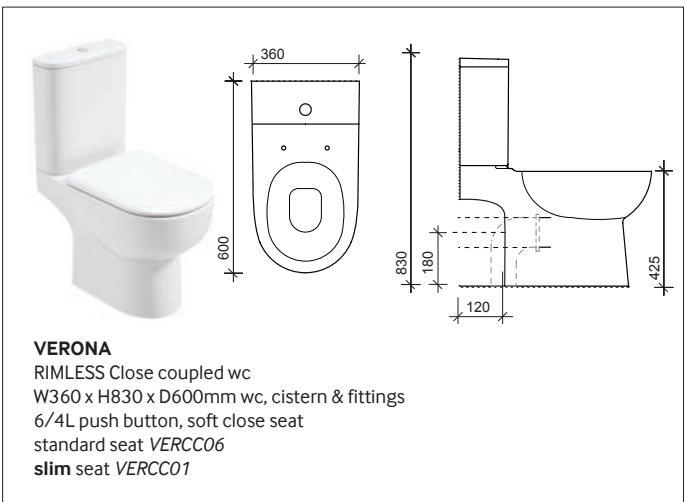

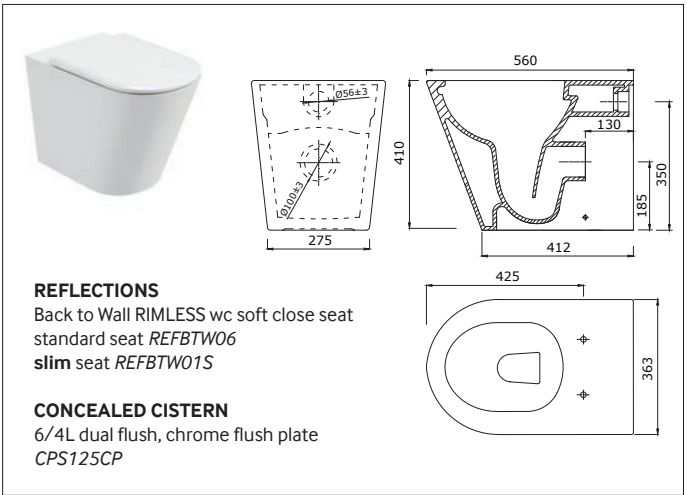

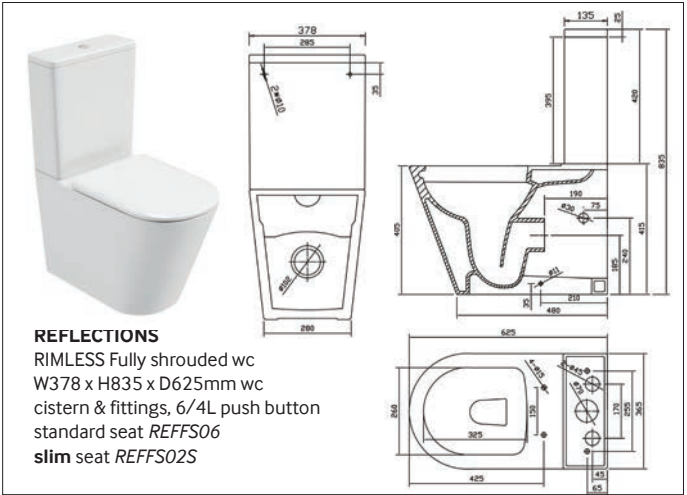

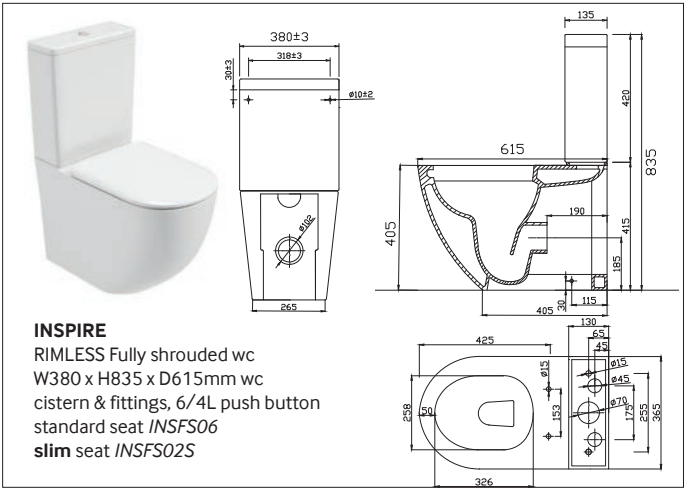

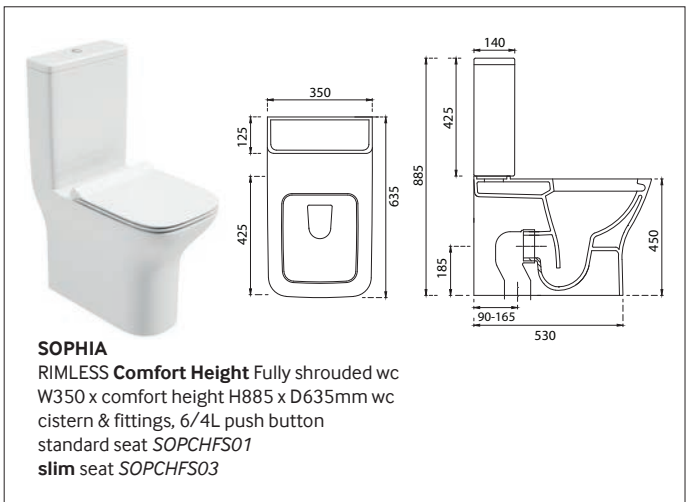

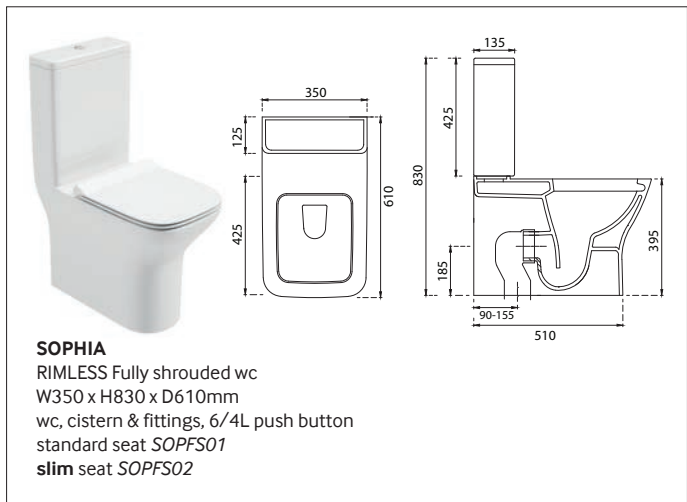

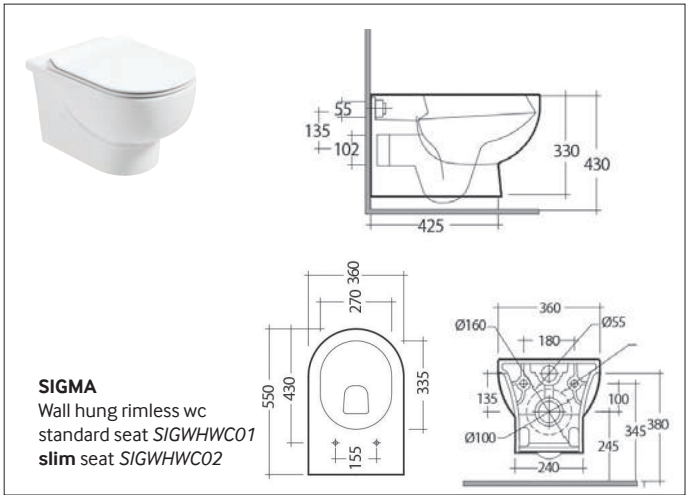

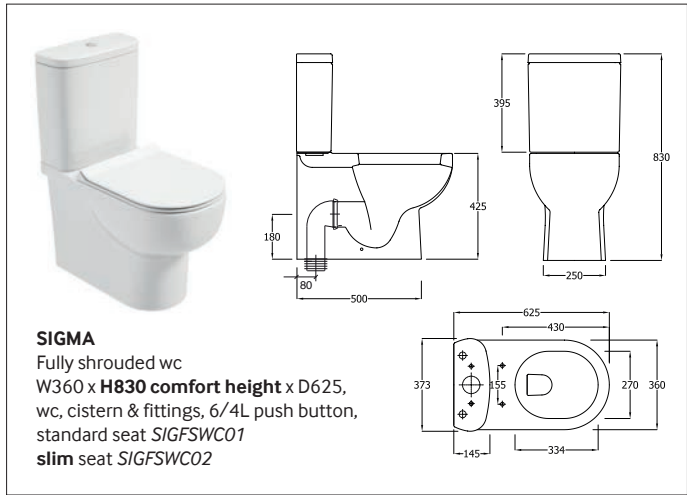

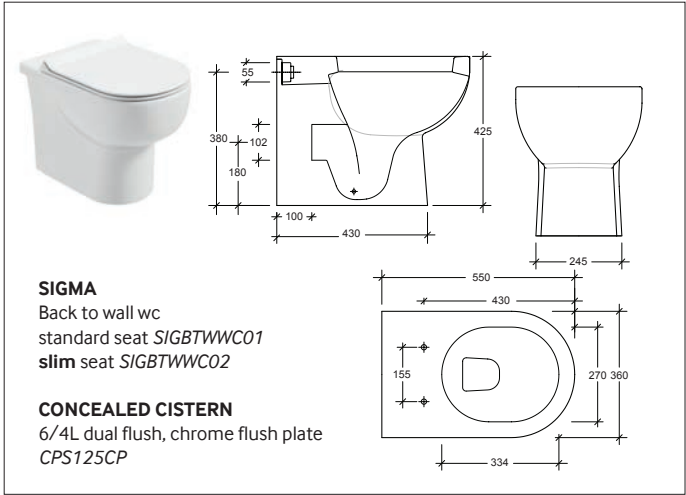

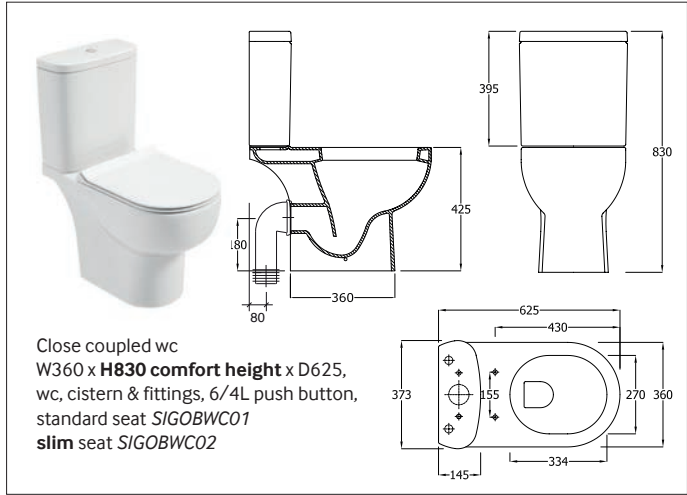

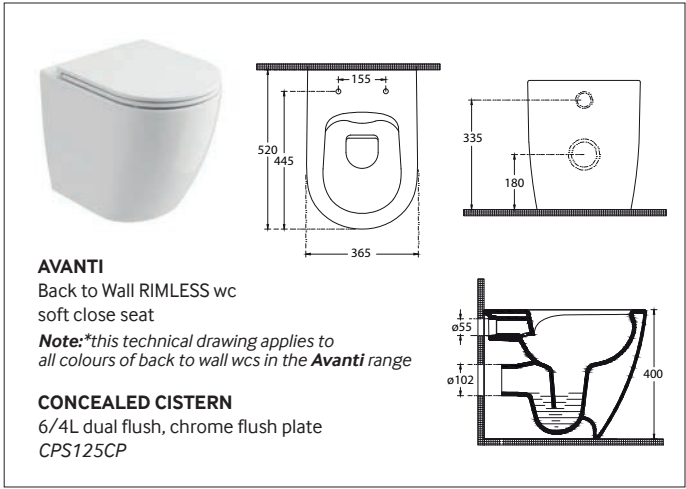

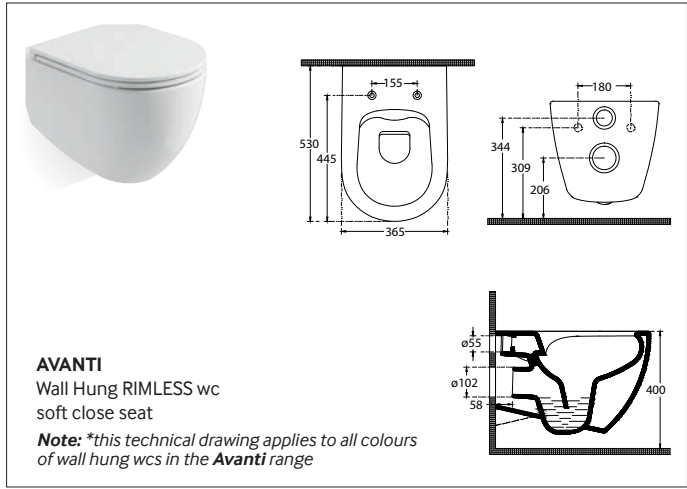

Planning tips to help you design your dream bathroom

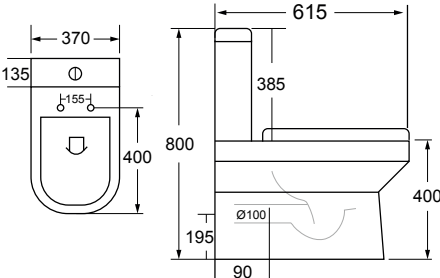

- 1 Measure your bathroom carefully. Using our grid on the opposite page draw out your bathroom space to scale.
- 2 Accurately mark out all fixtures such as doors, windows and radiators, also making note of which way and how much the door protrudes into the room.
- 3 Draw in shapes to best represent your bathroom items: wc, basin etc.

Using the scale 1 square = 200mm

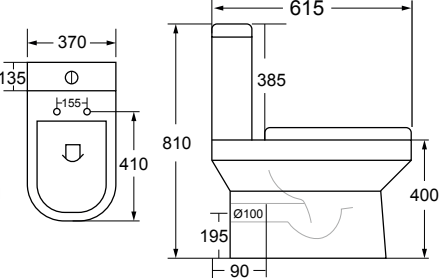

Scale: 1 square = 100mm

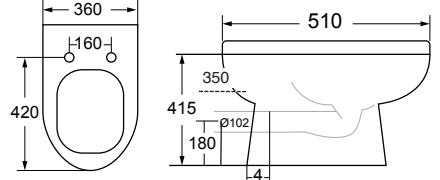

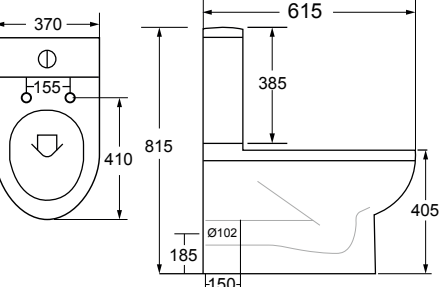

VIENNA

PRODUCT GUARANTEES

At **SONAS Bathrooms** our products have become the benchmark for others to follow. Our ranges are specifically tailored to meet the requirements of Homeowners, Installers and Trade Professionals.

All our products are manufactured to appropriate industry standards and where required to the necessary EN standards. For your additional peace of mind, we fully support our product guarantees with our technical support and spare parts after sales service.

In the event that you do encounter a problem with a **SONAS** product please contact us with the details of the fault and a proof of purchase from the **SONAS** dealer where the item was bought and we will do the rest. All after sales or technical queries can be emailed directly to customerservice@sonasbathrooms.com which will be answered by one of our in-house qualified plumbing advisors.

SHOWER TRAYS

Lifetime - Shower Trays
2 Years - Wastes & Accessories

ACCESSORIES

10 Years - Wall Mounted Ranges
2 Years - Toilet Seats
2 Years - Shower Seats

Please note that above guarantee and extended warranties are applicable for goods installed in a domestic environment with reasonable usage. Any item installed in a public or commercial area will be subject to 1 Year Guarantee. Faults must be reported within the respective guarantee period from proof of purchase date.

Guarantees are limited to product defects and failures arising from the manufacturing process and does not apply to products that have been damaged as a result of transit, misuse, incorrect installation or use of abrasive cleaning products.

SONAS Bathrooms will replace any product with a visual defect or that is manufactured outside of the allowable tolerances according to EN standards, however; all products must be checked for these defects by the installer as SONAS Bathrooms will not be responsible for any refitting or refitting costs associated with replacing the product.

SONAS Bathrooms must be given reasonable opportunity to inspect the product in the installed situation, if removed the product must not be destroyed but should be retained for inspection. Photographic or video media of the product in the installed situation may be requested. Suitable access must be provided in order to reasonably and cost effectively allow for a product to be repaired or replaced under guarantee. SONAS Bathrooms will not be responsible for reinstallation of products that are tiled in to areas without suitable access.

Cleaning & Maintenance

- All products should be cared for with a regular and suitable cleaning regime.
- The use of aggressive cleaning agents should be avoided and in particular on chrome, brass and aluminium surfaces a soft damp cloth and warm soapy water is sufficient.
- Suitable ventilation should be provided and in cases of bathroom furniture materials are water resistant but not water proof, therefore regular maintenance and the removal of excess water on or around the product is necessary to avoid damage.

Exclusions of Guarantee

- Incorrect installation not in accordance with fitting instructions and best plumbing practice.
- Failure to care for and maintain product as per care & maintenance guidelines.
- Improper use of product not in accordance with the intended use and limitations of the product specifications.
- Wilful or negligent damage.
- Damage caused by specific environmental circumstances, excess or negative pressure in the line, insufficient operating pressure as per the product technical specifications, limescale or hard water, aggressive cleaning agents or chemicals.
- Consumable items such as hinges, rollers, seals, cartridges, flexible tails are subject to a 2 Year parts only guarantee.
- Scratches or defects reported post installation.
- Ex display items.

Service Engineer Call Outs

- In cases where products fail under warranty, a replacement part, product or repair will be provided for the period of the guarantee as per the table above.
- If our onsite inspection determines the reported issue is not a manufacturing or materials defect, a call out charge of €100.00 & VAT will be applied.
