Grosvenor

Bathroom Furniture

The Grosvenor basin vanity unit will make your bathroom look more contemporary and neat with plenty of storage space. It also comes with soft closing drawers, providing ease of use.

The bathroom furniture is of MDF construction which is water resistant meaning it is ideal for bathrooms and longer lasting. This furniture range features a concealed handle design which gives the unit a more modern aesthetic.

Malone

Bathroom Furniture

If you are looking for a range of vanity units that will be suitable for a modern bathroom then choose the Malone Collection. The gloss white finish of this range of vanity units is ideal for matching with the white ceramic of contemporary bathroom suites.

From our designer selection of floorstanding & wall hung vanity units you can choose from two popular sizes - 500mm & 600mm. The double doors/drawers are soft closing as standard to bring a touch of luxury to your bathroom.

Helpful Advice

When Designing Your Perfect Bathroom

Whether you're creating a brand-new bathroom or refreshing an existing space, thoughtful planning is essential. From layout to lighting, every detail matters.

Use this guide to help navigate the key decisions that will shape a bathroom that's not only beautiful, but built to work for your lifestyle.

1. Define Your Daily Routine

● Think about how you use your bathroom

Is it a peaceful retreat for long evening soaks or a high-traffic zone for busy mornings? Understanding how your space is used helps determine everything from storage needs to layout. Family bathrooms, guest en-suites, and cloakrooms all require different considerations.

2. Maximise Your Space

● Make the most of every inch.

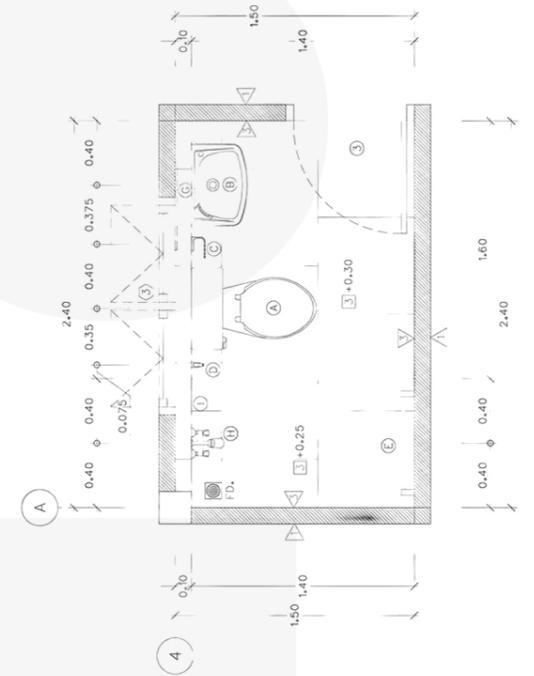

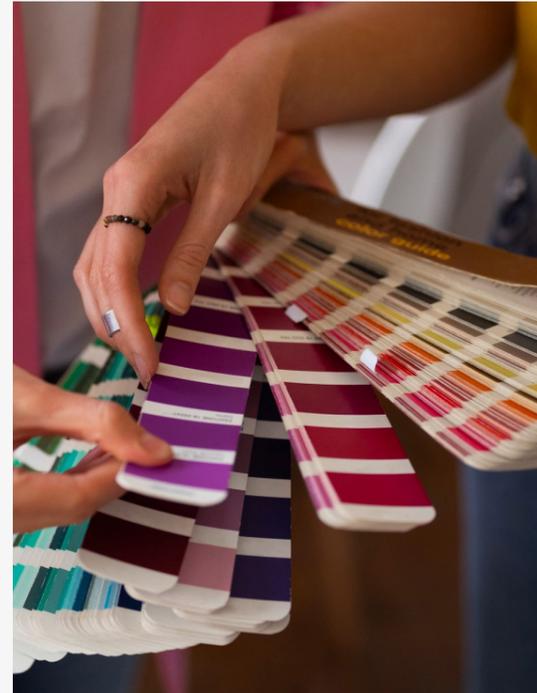

Whether your bathroom is compact or expansive, smart layout choices are key. Wall-hung vanity units like our Grosvenor range can free up floor space and make cleaning easier, while tall storage units help reduce clutter without taking up too much room.

3. Choose a Cohesive Style

● Feels like a natural part of your home.

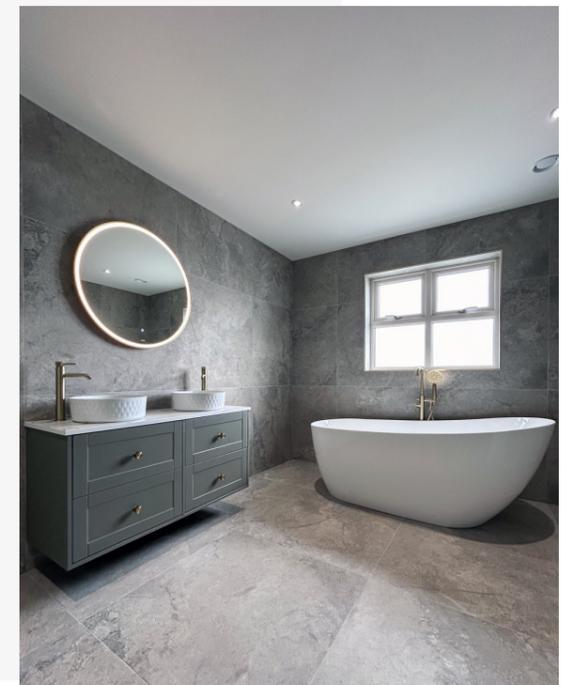

Do you lean toward classic elegance, clean minimalism, or bold colour statements? Choose a consistent colour palette, material finish, and style of fixtures to create a unified look. For example, brushed brass handles paired with soft green cabinetry add warmth and character.

4. Know Your Space

● Start with accurate measurements.

Take note of walls, windows, doors, and existing pipework. Understanding your layout helps determine what size vanity, bath, or shower fits comfortably and ensures you're not overcrowding the space.

5. Plan for the Future

● Think long-term, not just trends.

Your bathroom is an investment. Consider timeless features, quality materials, and layout flexibility. Will it adapt as your family grows? Will it remain accessible over time? Planning with longevity in mind ensures your bathroom continues to meet your needs for years to come.
