Designed for Life

Showering is more than simply washing, it's taking much needed time for yourself.

The past couple of years have taught us that we need to take our time when we can get it. For many those precious, blissful few minutes in the shower are rare opportunities in our busy days to unwind, to relax and to refresh. It's a time to think, to recharge and to prepare.

From the clarity of the glass to the quiet glide of the doors and even the reassuring feel of the tray under our feet. At Lakes, we consider every element of the showering space, to make sure it suits the needs of the people using it.

Whatever you need, whatever your style, scale or budget, our intelligent designs means there's a solution for you and your shower routine need be anything but routine.

Bev Brown
Chairman

It's all in the detail

What does quality mean to you?

Our senses of sight, sound and touch combine – often without us realising – to define quality, and the smallest of details can make the biggest difference. So we've examined every component of the showering space and how each adds to this feeling of quality.

Softly-closing doors; refined hardware; handles that feel secure and comfortable in the hand; beautiful, crystal clear, specially-treated glass that doesn't scratch. Trays that feel solid and don't wobble underfoot. Elegant designs and solutions for multi-generational living. They may not sound revolutionary, but, together, they add up to something special – a reaction that's more 'ooh' than 'okay'.

We've even engineered things you don't notice immediately, but still make a huge difference when it comes to cleaning and maintenance, such as quick-release doors and unique interlocking caps.

Lakes' quality extends beyond ergonomics and craftsmanship. Our service is simply the best in the business and our precision engineering gives us the confidence to offer a no-quibble Lifetime Guarantee that is transferable if you move house.

It's the attention to detail that really counts. Because when we get it right, you can simply get on with enjoying your showering space.

Lakes glass... for a Superior Showering experience

Glass you see straight through.

Showering spaces tend to be mostly glass, but it's the last thing you notice because the eye is drawn to the shiny fixtures and fittings. In fact, the better the glass, the less you notice it. Lakes Glass has been developed to ensure a crystal clear, smear-free shower that doesn't detract from your beautiful bathroom.

Glass to give your bathroom a clear edge.

You may not have noticed it before, but the iron-oxide content of standard glass gives it a green tinge. It's most evident when you look at the edge of the glass – and the thicker the glass, the greener it gets – but it also tints everything seen through it.

That's why we introduced PureVue^{HD} with reduced iron for dramatically clearer glass. From your carefully chosen bathroom tiling and décor to fittings and accessories, you will see a purer true-colour vision of your bathroom.

Glass that stays sparkling and clear.

Your shower is where you unwind and relax. But it's hard to relax when you're distracted by scratched glass and hard-to-clean limescale, smears or soap scum. Lakes Glass with AllClear[®] has a high-tech nano-bonded treatment on both sides of the glass which means water, limescale and soap scum slide off the glass rather than sticking to it. It stays clear and clean.

Glass with added value built in.

Quality is defined by how showering spaces perform. How they stay looking great. How they add sparkle and clarity. How they save time, energy and effort of cleaning.

Lakes Glass: a superior quality showering experience.

Experience the true colours of your showering space with PureVue^{HD} crystal clear, low iron glass.

PureVue^{HD} low iron glass reduces the green hue in standard glass to near-zero, so glass is clearer, lighter and brighter.

PureVue^{HD} is included in our Island and Coastline Collections, and selected Walk-Ins at no extra cost.

Normal glass has a green tinge

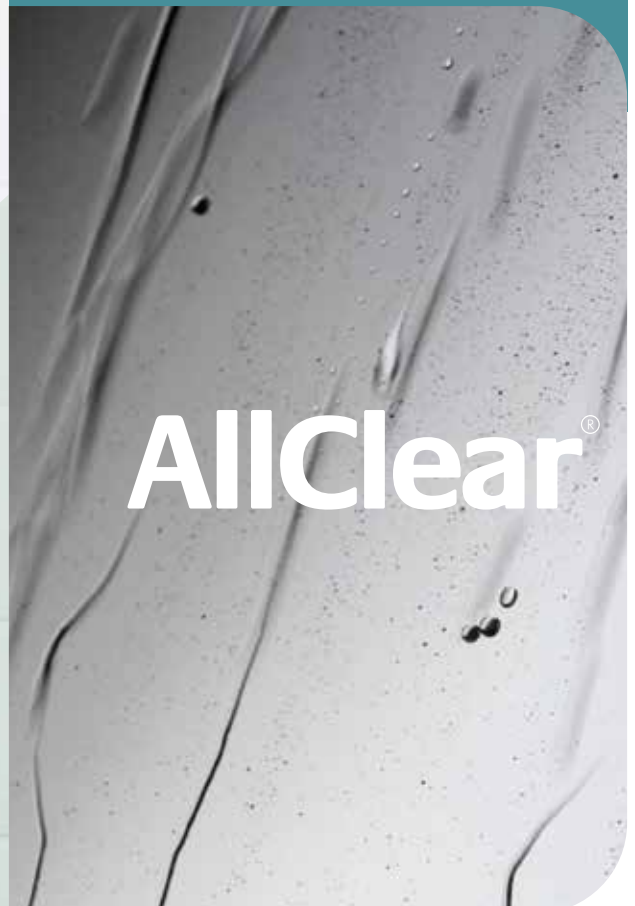

Lakes AllClear[®]

The shower is often one of the most in-demand utilities in a busy household, which can make it hard to keep clean and looking good as new. Lakes AllClear[®] advanced glass coating is applied on both sides of the glass as standard and at no extra cost.

The science behind clear glass. The microscopic nanoparticles in the Lakes AllClear[®] innovative bonded coating fills the gaps in the naturally pitted surface of the glass to ensure water, limescale and soap scum simply slides off.

A simple wipe clean with a damp cloth of the specially treated glass keeps it looking like new, so your relaxing shower isn't spoiled by smears and smudges.

Lakes Glass with AllClear[®] is 10 times more scratch resistant than standard glass, so it can handle whatever life throws at it.

Loyal, regular customers as well as those buying a Lakes product for the first time agree our products are 'excellent'. Lakes rating published via Trust Pilot is Excellent.

We are proud members of the Bathroom Manufacturer's Association and collaborate with many other fellow companies to focus on raising quality standards, improving safety and compliance and sustainability by reducing our environmental impact – all helping shape the future growth of our industry and showering product sector.

Lifetime Guarantee

Showers are important and integral elements of our lives. So, when it comes to buying or replacing a showering space, it helps to know your choice is supported by the highest quality assurance, customer service and technical support.

Lakes' genuine Lifetime Guarantee* covers all our shower doors and enclosures and spare parts and is also fully transferable. So even if someone moves home, the new owner will still be covered for the lifetime of the product.

If you have a problem with any part of a Lakes product, we will sort it out, quickly. Our efficient customer service support means spare parts will most likely arrive the next day. Another reason why we're recommended by homeowners, stockists and installers across the UK.

For more information on the guarantee for shower trays please contact us directly.

Carbon Neutral & Sustainable

Lakes has taken steps to be certified Carbon Neutral by changing how we operate as a business. Naturally, we recycle all our product, site and office waste.

Our product packaging is 100% recyclable too, plus we're working with customers to take back our used packaging from installers through participating stockists. This step alone will remove 2,000 kilometres of plastic banding and two million pieces of polystyrene a year from landfill.

We continue to work with Carbon Footprint Ltd to offset the carbon emissions produced in the day-to-day running of our business by investing in environmental projects.

Lakes is proud to have been awarded the Carbon Footprint Standard and recognised as a Carbon Neutral Plus organisation.

What our customers say

“ Keep doing what you always have done. Nobody can ask any more of a supplier. Thanks for 14 years of great service. ”

Deb & Ralph Crook, RJC

“ You deserve recognition and praise for the service I received from you today. You answered the phone very promptly and managed to quickly find the shower door for which I needed a spare part. The two gentlemen I spoke to on separate calls could not have been more pleasant and helpful. If only more companies could behave in a similar fashion. ”

N Kelly

“ Superb quality, excellent after sales and a great prices. Thank you. ”

Diane Roberts

“ What a pleasure to be able to call a company and get through straight away. I purchased an ex-demo shower enclosure from a local shop. Unfortunately, lots of seals were missing and so were the instructions. After five extremely helpful minutes on the phone, I knew what I needed to do and the parts were sent to me in the post to me, free of charge. ”

Thank you.

Gary Wilton

“ The Lakes warranty is outstanding as is their customer service. ”

Victoria Klyve

“ I have found AllClear® brilliant. I live in an area where the water is particularly hard and AllClear® keeps my shower screen sparkling clean. The water seems to bounce off the glass, leaving no need for constant cleaning. I would definitely recommend this product. ”

Fiona Clissold, Trustpilot

“ The service has been second to none, going that extra mile to find a resolution and help with a replacement part for my shower. I would recommend Lakes to anyone, especially with your excellent after sales service. ”

Thank you.

John S Innes

“ My experience of aftercare/ customer service could only be described as 5 star. Having purchased shower doors and having managed to damage a part during fitting, I turned to Lakes hoping that a replacement was available and seeking to purchase the part needed. The response was instant. The email simply said part on its way and it was free. Nearly fell off my seat. Arrived 2 days later. Made my day to be honest. ”

Kelly Wilson, N. Ireland

“ Lakes spares department was outstanding. Craig was especially helpful and the quality of the shower enclosure must be the best on the market. ”

David Starkey

MODULAR WALK-IN

COLLECTION

Our new, highly versatile, modular walk-in range provides more solutions than most, with 28 walk-in showering configurations and six finishes to choose from. In short, customising and personalising your showering space has never been easier.

MODULAR WALK-IN FOR YOUR SHOWERING SPACE

//RECESS/ALCOVE

Our modular walk-in systems can either be installed onto a shower tray or flush fit directly to a tiled wet room floor, providing great accessibility for the specific needs of individuals of all ages and challenges.

Lakes modular wet rooms are one of very few ranges that are compatible with almost any bathroom layout, size and user needs, combining safety, style and versatility in bathroom design and creating that spa look and feel. Suitable for recess, corner and flat-wall installations and where space in the bathroom is limited.

RECESS/ALCOVE

Ideal for smaller bathrooms, ensuite, guest rooms or loft conversions, but more often installed in the space where a bath is being removed and replaced with a shower.

Using one main fixed front panel on a floor substrate allows homeowners the flexibility to design a personalised and contemporary showering space and choose from one of six colour finishes. For added luxury [and keep the water within the showering area], add a fixed or hinged deflector panel.

//CORNER

CORNER

A corner space is often the most common area available and can offer more options in terms of form and function.

With more floor space often available, two panels [main/front with a return/side or return panel] can be used. This allows the walk-in layout to work more like a standard corner shower enclosure.

The side panel is a practical solution to simply preventing water splashing outside the showering area. Corner walk-in set-ups offer as much splash protection as a normal moving shower door. What's more, the 90° glass-to-glass join feature can be made to look minimal using a corner bracket and clear sealant or using a more traditional full height corner post.

FLAT WALL (3 -SIDED)

Not always reserved for larger bathrooms, but again it could be a space created as a result of a bath being replaced with a showering area. Unlike standard moving doors, creating a 3-sided enclosure with a modular walk-in set up is much easier than trying to design and install a customary enclosure with a sliding, bifold or hinged door. It's also much more cost effective.

Alternatively, a flat wall walk-in shower can also be configured as a 'walk-through' shower with double entry points, featuring a single fixed glass panel.

In summary, there's a Lakes walk-in shower set up to suit any size or shape of bathroom, and any budget .

Hinged Shower Panel

A vintage Ford Thunderbird car is shown in a dark, moody setting. The car is the central focus, with its sleek lines and classic design elements visible. The text "Designed for life's journey" is written in a white, elegant script font across the middle of the car. The background is dark and textured, possibly a wall or a large piece of art. The overall mood is sophisticated and timeless.

A photograph of a person sitting in the driver's seat of a car, looking out the window. The entire image has a strong green color cast. The person's profile is visible in silhouette against the bright light coming through the window. The text is overlaid in the center of the image.

Space to breathe,
when the
door closes

A person is sitting in a train carriage, reading a magazine. The scene is captured from a low angle, showing the person's hands and the magazine. The train carriage has two large, rounded windows. The entire image has a teal or blue-green color cast. The magazine cover features a woman's face and the text "POCHTIS" and "Knoth".

Waste position is dependent on the type of tray selected. Complies with EN274-1.

Contact Lakes for advice.

In the detail

Quality is all about detail and whichever solution you choose, you'll find real attention has been paid to every aspect of design, function and finish.

Please note: All measurements are approximate and subject to change without prior notification. All product images are for illustration only and subject to change without prior notification.

Frames

Our elegant aluminium frames are available in three distinctive finishes. Choose from anodized polished silver, matt anodized black or a clean white powder coated finish, where available.

All our Collections, including doors and screen heights are measured from the top of the tray or bath.

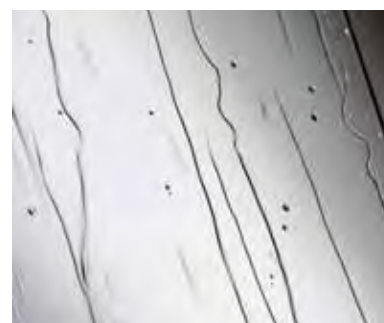

Choose from anodized polished silver, matt black, Brushed Nickel, Brushed Brass, Brushed Bronze or Gun Metal coated finish where available.

Concealed fixings: Included on Island, Walk-In and Coastline Collections – all products except Alassio. Also included on SS100, SS105, SS120 and BSA bath screens.

Safety Glass

All our products are made from toughened glass, approved to BSI EN12150-1 in a range of thicknesses (see product pages).

Toughened Safety Glass.

Handles

Our Lakes' branded handles are exclusive to the Island Collection (see pages 18-33) and Wave Collection (see pages 34-51). Smart and practical loop type handles in matching chrome plate or white powder coat are fitted to all Classic semi-framed products.

Die-cast Loop Handles (Coastline Collection).

Die cast handle with bright chrome plate for hinged door, Island Collection (see pages 18-33).

Stainless Steel with Bright Chrome Plate, bow handles (Wave Collection).

Reversibility

To match your room design the majority of our products, including doors and bath screens

are designed for universal fitting. However, please consult Lakes before ordering to ensure compatibility with site conditions.

Flexibility

Many of our Classic products can be made available in special heights and widths. For more details, please call Lakes.

Bearings

All our sliding door wheels are fitted with robust stainless steel bearings. The top wheels are adjustable to allow for fine tuning of door alignment. The bottom roller bearings feature 'Quick Release' buttons, spring loaded for easy cleaning.

Coastline Collection top wheel.

Adjustability

For the perfect finish, all our Collections have an adjustment for out of true walls built into each wall profile. The full range of tolerance is shown on each specification page.

Adjustable Wall Profiles.

Additional Strength

Bracing arms provide additional support, strength and safety for all double panel bath screens and our elegant Walk-In and Shower Screens.

Double Panel Bath Screen Bracing Arm.

Bath screen seals

Lakes bath screens come with high quality bottom seals. Over time and use this rubber can deteriorate and become less effective. Replacements can be purchased individually and easily fitted to your bath screen.

S104A - Universal bottom seal for 6mm bath screen hinged panel BSA10 - BSA60.

Optional Ceiling Bracing Kit

W10-040B: Available for Horizon Walk-In showers (pages 48-49).

Ceiling Bracing Kit W10-040B.

Extension Profiles

Our high quality extension profiles can be used to bridge gaps in non-standard sized openings (detailed on relevant product pages).

860-N - Aluminium Extension Profile for Antigua and Aruba, Island Collection.

Can be fitted to FIXED PANEL SIDE only of slider door and to side panel on the Aruba.

LK8LEPS - Aluminium Extension Profile for the Island hinged door.

LK8LEPB - black variant for Wave Walk In products.

8HLEPS - Aluminium Extension Profile for the Coastline Doors (8H) Collection.

LEPS (silver) or LEPW (white) - Aluminium Extension Profile for the Classic Range.

WAVLEPS (silver), WAVLEPB (matt black) & WAVLEPBR (brushed brass) - aluminium Extension Profile for Wave shower doors.

Lakes Additions

Our products are designed with modern family life in mind, reflecting changing demographic trends such as the rise in multi-generational living. Bathrooms that cater for different needs within the same household are increasingly important, with style, accessibility, robustness and low-maintenance all high priorities.

Lakes Additions is a growing suite of additional options for showering spaces to suit your life and style. Whether it's adding a removable handle or a discreet foldaway seat, this versatile range means everyone in the home can enjoy an invigorating shower without compromising on comfort or design.

Product Care

Caring for your shower door walk in panels, shower, bath screen and shower tray

To maintain your guarantee, we recommend cleaning as below:

- Glass: Only use a soft cloth and mild detergent, rinse off thoroughly after cleaning.
- Metal and metallic surfaces: Use only a soft cloth and warm soapy water. Rinse off thoroughly.
- In hard water areas, regular cleaning of your Lakes product will help to prevent the build-up of limescale.
- Limescale can be removed using a 50:50 solution of white vinegar and water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product.
- Do NOT use cleaning products, bleaches, solvents or abrasive pads.
- Non-compliance with these cleaning instructions will invalidate the products guarantee and may cause plated / painted / anodised surfaces/finishes to deteriorate and could adversely affect safe operation of the enclosure.

After Sales Commitment

At Lakes we are passionately devoted to providing the very best customer service. Lakes excellent customer service is supported by an extensive stock of spare parts across all ranges..

Call our dedicated customer service team on **01684 853870** who will deal with your enquiry and will swiftly dispatch your spares order. Alternatively email customerservice@lakesuk.com or head to our website and complete our enquiry form www.lakesuk.com/contact-us

Spare Parts

We have a team of technical experts who can deal with and offer advice on any queries you may have and arrange despatch of spare parts within 3-5 working days. Call us on **01684 853870**.

What to do if something goes wrong

Should the product not function correctly on initial use, firstly, contact the installer to check the installation is in accordance with your installation instructions. Should this not resolve difficulties or should performance decline, refer to the 'Troubleshooting' section within the installation guide. Alternatively, our customer service team can assist or if necessary, arrange for a service engineer to visit. Please call **01684 853870**, email customerservice@lakesuk.com or head to our website and complete our enquiry form: www.lakesuk.com/contact-us

Returns Policy

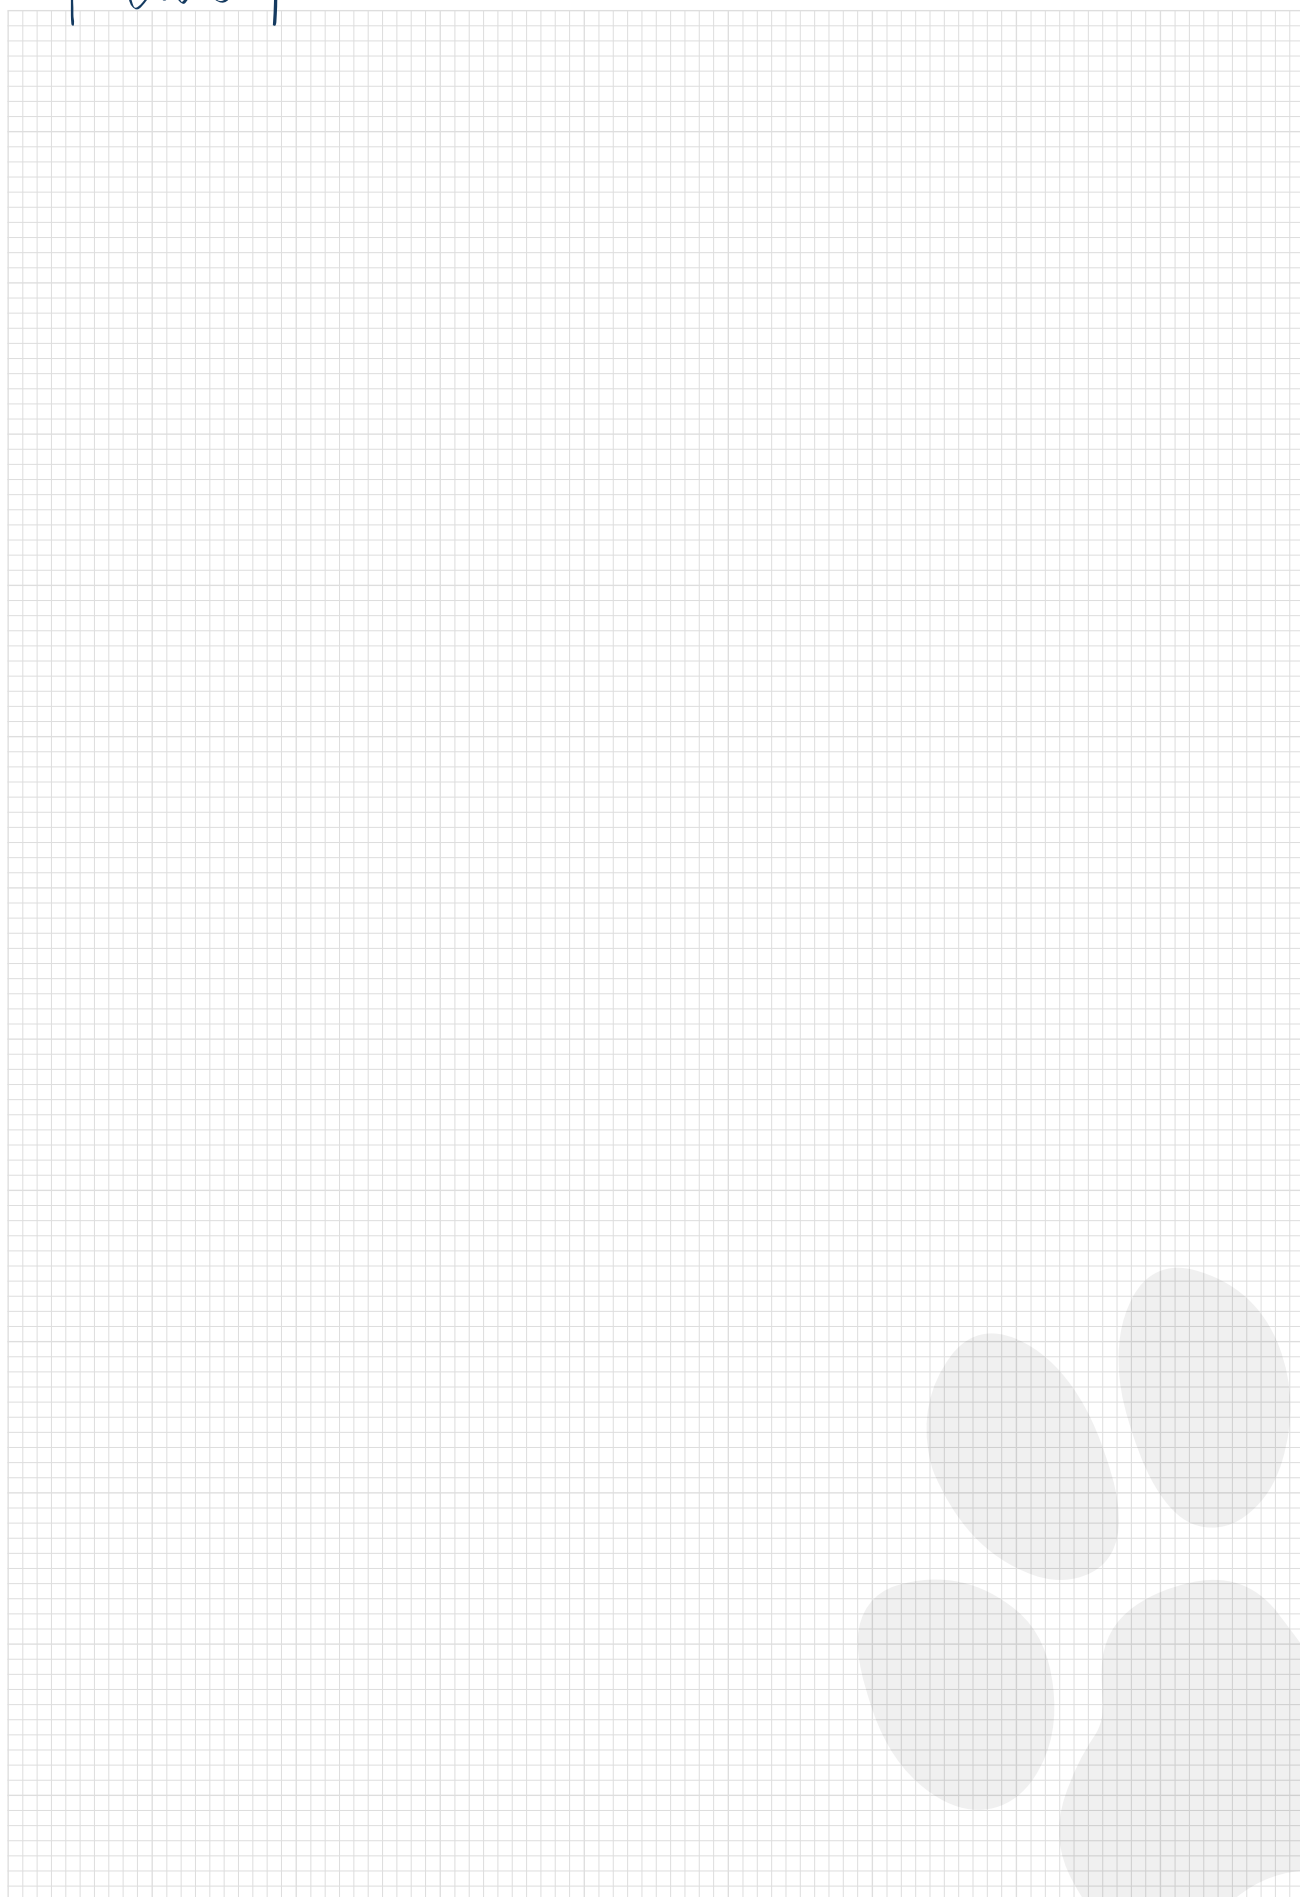

Lakes will not accept return of any product no longer required that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return subject to agreed returns charges, but no longer than 3 months from date of original delivery.

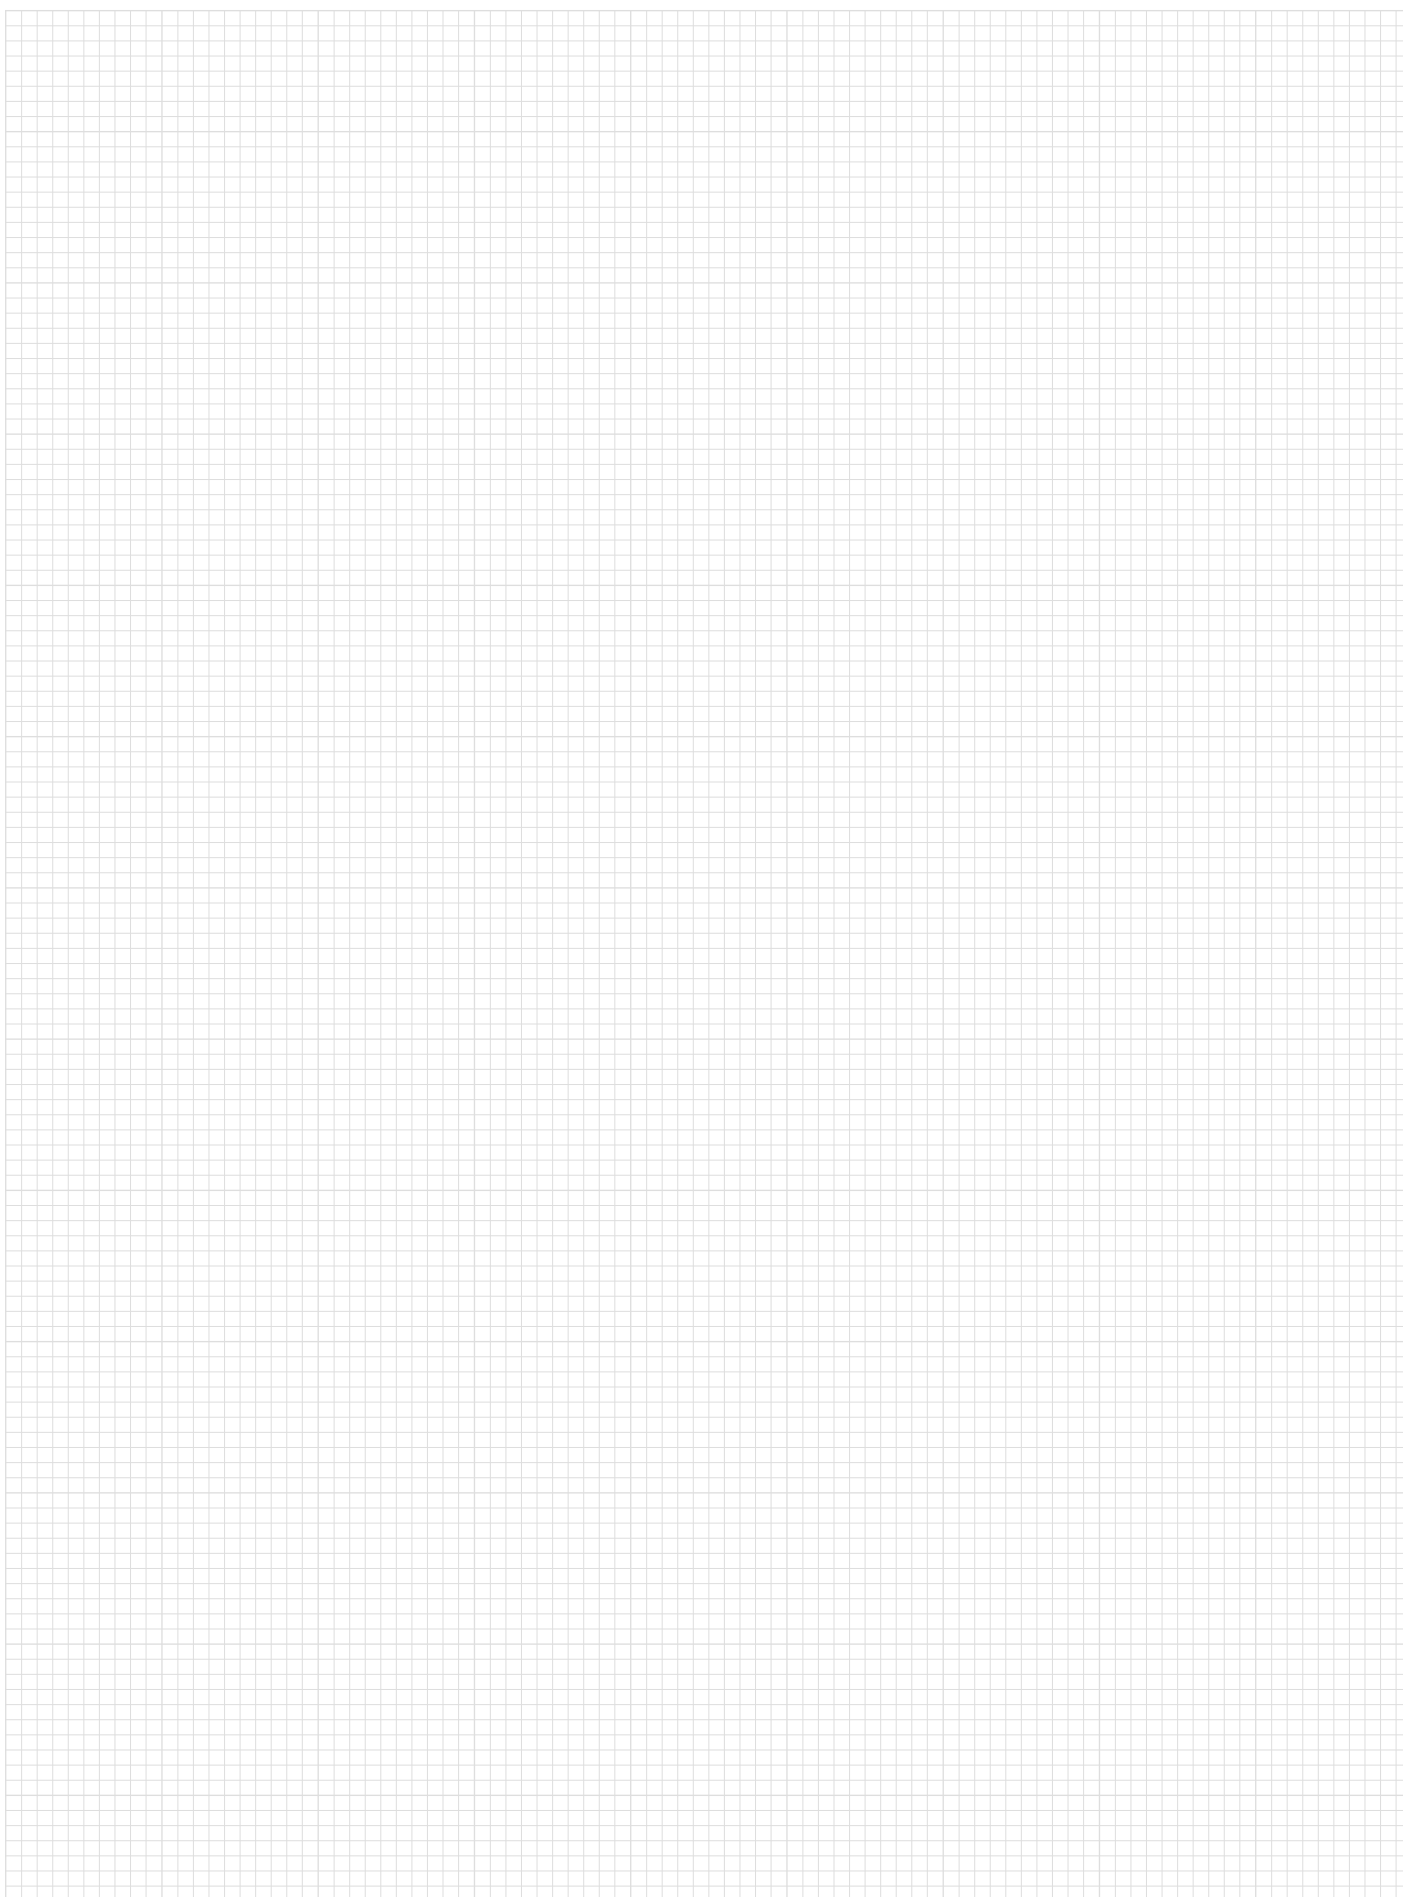

As part of Lakes continuing policy of product improvement, we reserve the right to amend specifications, colours and prices and discontinue products without prior notice.

Images, room layouts and associated bathroom products are for marketing and visual purposes only. The colours and finishes shown in the catalogues are as accurate the printing process permits.

*Errors and Omissions Exempt.
