Basin Units

Contour's flat fronted doors are framed by curved, contemporary edges which will fit in anywhere. Wall mounted or freestanding, and there's a multitude of sizes.

Basin Options

The Contour basin offers a slim edge with a modern curved design. Or for a truly luxurious look, opt for one of our seven stylish countertop basins, with three countertop finishes options. See page 128-129.

Handles

Contour units are supplied with curved chrome handles as standard. Upgrade these handles to a stylish matt black finish, or opt for our alternative design handle also available in chrome or matt black.

Coordinating Items

Complete the look and add extra storage at the same time with Contour's 350mm wall column. For something a little smaller, coordinating single or double door mirrored cabinets are available.

Contour Furniture

Handle Options

Contour basin units are supplied with curved chrome handles as standard. If you want to dial up the style you can upgrade this handle to a matt black finish, or match the curved style of the Contour basin unit with our alternative handle design in matt black or chrome. Alternative handles are purchased separately, refer to the table opposite for usage.

400mm Anthracite Cloakroom Unit | Single Door Cabinet

Drive Furniture

At R2 we take the challenge of Britain's small bathrooms very seriously.
That's why we've developed Drive, a cloakroom friendly range of wall
mounted and freestanding units in three finishes.

Drive Finishes

Basin Units

At only 400mm wide the Drive freestanding or wall mounted basin units are perfect for cloakrooms.

Coordinating Items

Additional storage is offered with a 400mm mirrored wall cabinet, available in coordinating finishes.

Contemporary Isocast Basin

The basin is made from Isocast, a tough, resilient gel-coated resin which is extremely durable and easy to clean.

Fitted Furniture

made for living

How To Order Your Fitted Furniture

Create a unified look in your bathroom, hiding pipework as well as well as maximizing the space to giving more storage.

Fresh contemporary finishes and a choice of worktop and basin options offer the flexibility to create the perfect solution to suit your style. To design and plan your new bathroom – simply follow our step by step guide and use the following pages for inspiration.

01 Door Style & Finish

Choose your door style and finish—either the slab door of muse the shaker style of stow, or hide's handleless doors. Then choose your desired door finish to front your standard depth or space-saving slim depth units.

02 Handle Options

Choose your handle style from our extensive handle collection, see pages 106-107 for the full offering

Worktop Options

Select a worktop from either our Strata solid surface or laminate options ideal for countertop basins. Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim depth units. See pages 104-105 for complete offering.

03

04 Sanitaryware Options

Choose your R2 sanitaryware. See pages 126-179 for options. For more basin styles see pages 98-102.

Plinths & Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

05

06

Mirrors & Cabinets

Choose your preferred mirror or cabinet, see pages 238-273. Also don't forget the useful fitted furniture wall cabinets for additional storage.

07

Bath Panels

Select a coordinating bath panel. See pages 120-121.

08

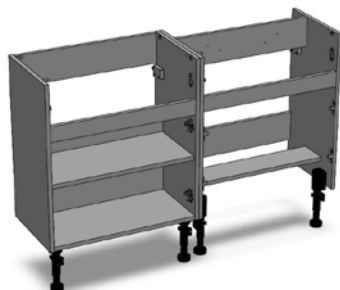

Tap Options

Complete your bathroom with the addition of an R2 basin mixer. See pages 180-201 for the complete collection.

Fitted Furniture Step By Step

With our versatile fitted furniture and huge choice of additional bathroom products, it is easy to create your unique bathroom. One which will fit not only your personal style, but also the space and more practical needs that you have. Follow these easy 9 steps to help create your perfect bathroom.

Step
01

Carcass

Select your carcass. Carcasses are the building blocks of fitted furniture. Almost every run will start with a semi-countertop (SCT) basin unit, and a back-to-wall unit (BTW) which houses the cistern.

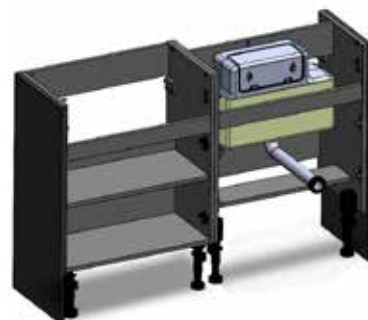

*End panels can't be used with Club isocast basins

02

Filler / Clad On Panels

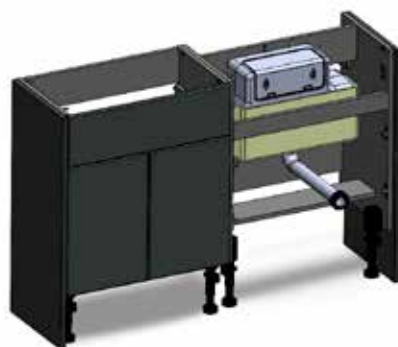

Optional Filler / Clad-on panels hide the carcasses at each end. They can also be used in between carcasses for a framed look. If not using full end panels then return plinths should be used for floor-mounted runs.

Step
03

Cistern & Flush Button

Remember to select a cistern. The cistern is important as it provides flushing water to the pan. The cistern is housed inside the BTW carcass.

Step
04

Semi-Countertop Unit (SCT) Fascia Packs

These fascia packs comprise x2 doors with soft close hinges and a top fascia on quick release clips.

Step
05

Back To Wall (BTW) Fascia Packs

These two panels mask the back-to-wall carcass and cistern. These panels should be cut to allow the pan inlet and outlet pipes to pass through and for chosen flush button to be installed.

Useful Tips

We recommend a 5-10mm overhang of the worktop at each end of the furniture to prevent water dripping onto furniture.

Use silicone sealant to fix the basin in place and seal around the edge of the basin to prevent water ingress.

Step

06

Plinth

These mask the plumbing gap below the carcasses. They are optional and are not required for a wall mounted run.

Step

07

Worktop or Integrated Basin

A wide range of worktop options or integrated basins and worktops add to the custom feel of fitted furniture. Slim and standard depths are available in all. Worktops are available in a variety of lengths and patterns. The worktop and SCT top fascia should be cut to suit basin selected.

Step

08

Basin & WC

We offer a wide range of basins and pans to suit your style and which slot perfectly into our fitted furniture ranges.

Consider Worktop Options

Why not define the overall style of your fitted furniture unit further by choosing an aspirational solid surface natural stone-like worktop, alternatively choose a laminate worktop from our range of go to laminate finishes. See pages 104-105 for more details.

Stylish & Versatile

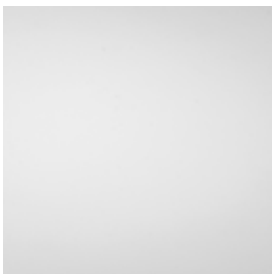

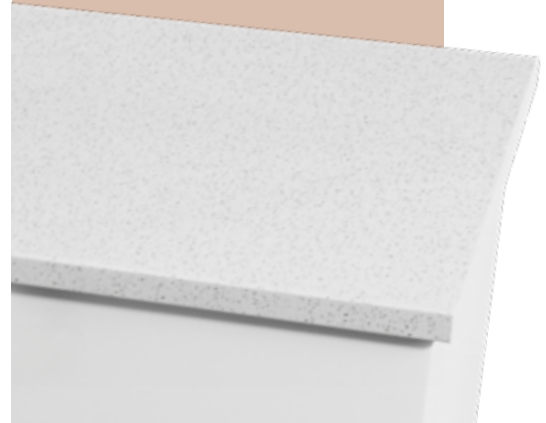

Solid Surface Worktop Options

An ideal solution for those wishing for the aspirational look and feel of solid surface worktops, at a price to make it reality. Made from a solid 25mm sheet, the natural stone-like beauty combined with a square edged profile makes them a perfect choice for your bathroom. See pages 119 for worktop pricing.

Useful Tips

Being solid, strata can be cut to whatever size or shape your bathroom demands using standard woodworking tools, with no need to bond or use finishing strips. Simply cut to the desired profile and sand down the end to a fine finish.

Countertop Basins & Worktops

A growing trend in highly stylish bathrooms, countertop basins give your bathroom a unique and modern feel. When placed on a worktop, these oval, pill, rectangular or square basins provide a clean uncluttered finish. A distinctive and attractive alternative to conventional bathroom basins. Define the overall style of your unit further by choosing an aspirational solid surface worktop to complement your countertop basin. The natural stone-like beauty of our bianco marble, dark quartz and arctic white creates a striking effect.

The lightest touch of the black glass-fronted flush plate is all that is required to initiate the flush, and the plate lights up to indicate activation.

- Recommended for furniture or lower height installations
- Touch operated to prevent inadvertent use
- Powered by 4 x AA batteries (easy to change, no tools required)
- Low battery power alarm (battery life in excess of 1 year)
- Dual flush
- Manual override flush
- Illuminates on operation
- Use on wall hung frames and In-wall cistern
(not compatible with slim depth furniture)

Close Coupled Sensor Flush Kit

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid.

The button kits have also been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 50.8mm base.

The following systems require flush button kit TR9031.

- **Langford**
- **Radar**
- **Debut**

The following systems require flush button kit TR9032.

- **Sky**

Stealth Mirrors

Discover invisible lighting hidden behind Stealth's diffuser technology. On our black finished option, when the product is off, the mirror appears to have a solid black frame but once turned on, the functional, inward facing lighting illuminates your face. Alternatively, our brushed brass Stealth mirrors offer a white diffuser which provides bright lighting in a contemporary frame which pairs perfectly with our brassware. A heated demister pad is also included on all models.

Flow Cabinets

The popular Flow cabinet offers bright lighting, double sided mirror doors with heated demister and touch sensor controls. With mirrored sides to reflect your wall finish and a dark grey interior with smoked glass shelves the cabinet has a contemporary aesthetic. Inside there is ample storage complemented by a two-pin charging socket to keep your toothbrush fully charged. For a more subtle look, the mirror sides can be removed to allow a recessed installation for those who want to hide their storage away. Available in single, double, and large double door sizes.

Quality & Service

As one of the UK's largest suppliers of bathroom products, we set very high standards in design, manufacture and service. We also invest heavily in product improvement and innovation to ensure complete customer satisfaction.

Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so.

We reserve the right to amend specifications at any time if an opportunity to further improve the product occurs. All dimensions quoted are within reasonable tolerances.

R2 furniture is designed for use within domestic installations which are adequately ventilated, and is not suitable for installations in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina and the lighting they are compared in. Imagery shown in this brochure are representative only.

All roomsets have been photographed to provide an artistic impression only.

Pricing

All prices quoted are inclusive of Value Added Tax which will be charged at the rate applicable on the date of despatch. We cannot be held responsible for any errors or omissions to products or prices.
